TIP

A paper template makes it easier to repeat the same sizes and keep the name panel centered on every bandana you sell.

Trace and Cut the Fabrics

Cut 1 main bandana, 1 lining bandana, and 1 name panel.

- 1 Place the bandana template on the wrong side of the main fabric.

- 2 Trace and cut 1 main bandana piece.

- 3 Repeat the same tracing and cutting on the lining fabric.

- 4 Trace and cut 1 rectangular name panel in the chosen contrast fabric.

- 5 Check that the 2 bandana pieces match and the panel is cut straight.

If your fabric is directional, check the print before cutting the main and lining pieces.

Choose a contrast fabric for the name panel so the lettering is easy to read.

BANDANA COLLAR PATTERNS

Prepare the Name Panel & Add the Name

Finish the panel neatly, then personalize it before attaching it to the bandana.

STEPS

1. Apply lightweight interfacing to the wrong side if needed.

2. Fold each edge of the panel to the wrong side by 1/4 in and press.

3. Mark the horizontal and vertical center of the panel.

4. Add the pet name, keeping it centered inside the panel.

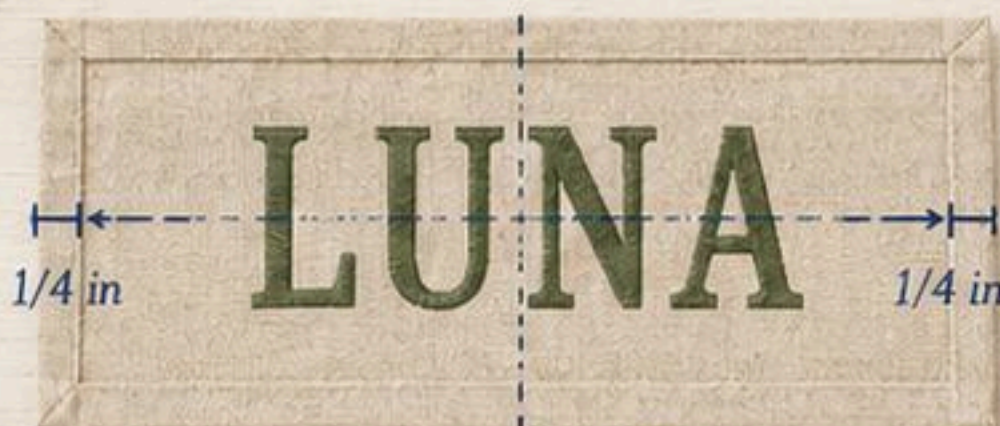

5. Press again so the panel lies flat and ready to stitch.

FOLDED EDGE DETAIL

Edges folded 1/4 in to the wrong side and pressed for a clean finish.

CENTERED NAME DETAIL

Name is centered with even margins all around.

Leave a small margin around the letters so the stitching line will not overlap the name.
