Make one rounded-edge template in the size you want.

1. Draw the top width using the size chart.
2. Mark the center of the top edge.
3. Measure straight down the correct cut height.
4. Sketch the 2 side edges so they slope gently down.
5. Use a bowl, plate, or French curve to round the bottom edge into one smooth arc.
6. Label the template with the size name.

SIZE REMINDER

-  **SMALL** — 24 in wide x 8 in tall
-  **MEDIUM** — 30 in wide x 10 in tall
-  **LARGE** — 36 in wide x 12 in tall

A symmetrical curve gives the bandana its soft finished shape, so match the left and right sides evenly.

Trace and Cut the Fabric

Transfer the template to the fabric and cut 1 rounded-edge bandana.

Place the template on the wrong side of the fabric.

Trace around the top edge, side edges, and rounded bottom edge.

Cut 1 fabric bandana carefully, keeping the bottom curve smooth.

Check that both sides of the curve look even.

NOTE

Cut on a single fabric layer for the most accurate shape.

TIP

When cutting the rounded edge, use long smooth cuts instead of short jagged snips.

First Fold & Press

Fold the raw edges in by 1/4 in and press the shape into place.

STEPS

1. Fold the top edge to the wrong side by 1/4 in and press.
2. Fold both slanted side edges in by 1/4 in and press.
3. Along the rounded bottom edge, ease the fabric inward a little at a time.
4. Use clips or pins to hold the first fold if needed.

CURVE DETAIL

Taking small folds around the curve helps the hem stay smooth and prevents sharp corners from forming.

BANDANA COLLAR PATTERNS

Second Fold & Clip the Curve

Fold the same edges in once more to hide the raw edge completely.

OVERVIEW

1. Fold the same edges in another 1/4 in.

2. Make sure all raw edges are fully hidden inside the hem.

3. Place extra clips around the rounded bottom edge so the curve stays smooth.

4. Check that the left and right sides of the curve stay even.

BOTTOM CURVE DETAIL

TOP EDGE DETAIL

After the second fold, the rounded bottom edge should look smooth and balanced with no visible raw fabric.

2. Start on a straight section so it is easy to backstitch neatly.
3. Sew slowly around the rounded bottom edge to keep the curve smooth.
4. Backstitch at the beginning and end.

TOP EDGE DETAIL

Slow, steady stitching around the curve gives the bandana a clean professional finish.

2. Tie at the neck.

3. Adjust for a smooth rounded drape.
