Cut & Prepare the Pieces

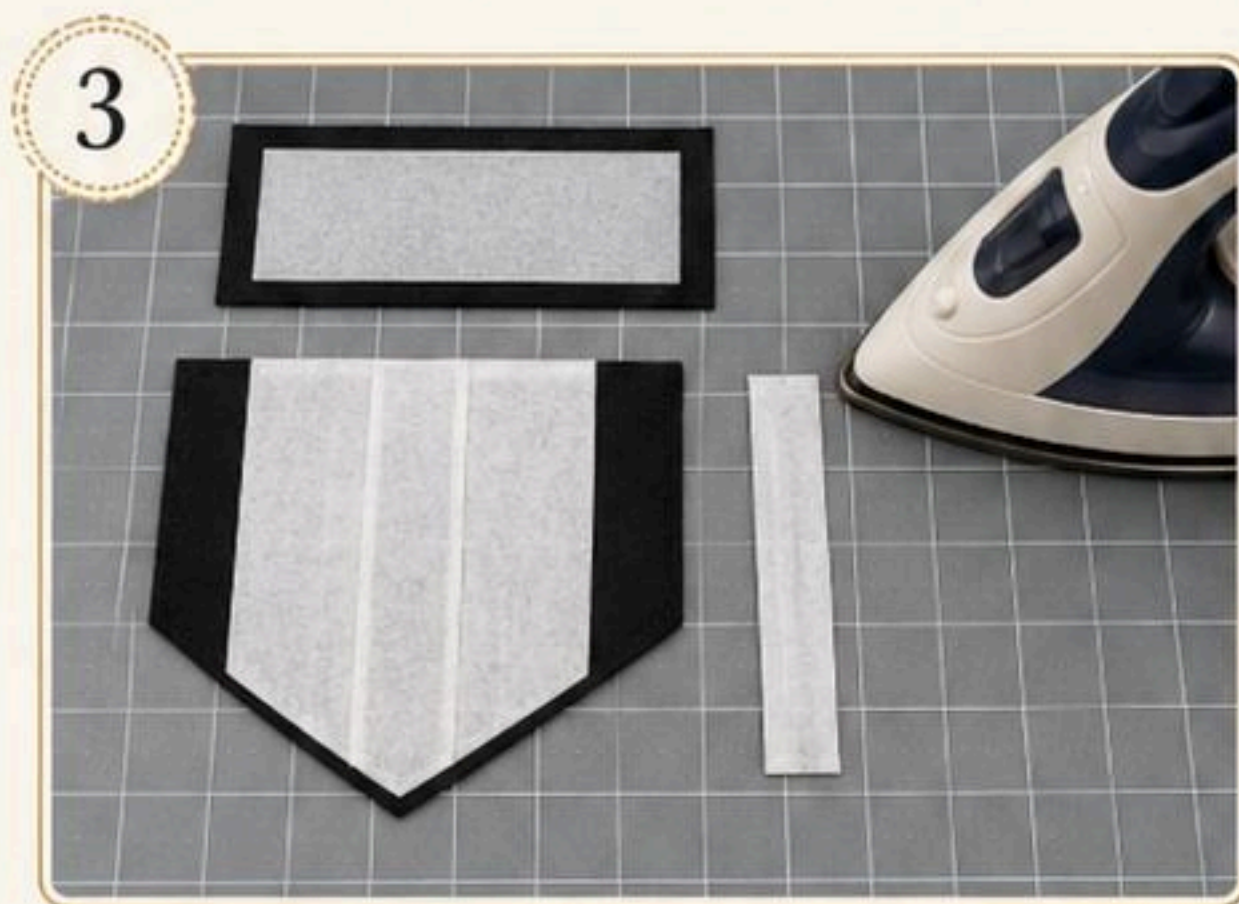

Accuracy at this stage keeps the collar and tuxedo front neat and polished.

Cut the fabric pieces according to the size chart.

Cut the nylon webbing and heat-seal both ends to prevent fraying.

Fuse interfacing to one bow rectangle, the tuxedo front panel, and the placket strip.

Press the collar strip: fold both long edges 1/2 in to the center, then fold in half lengthwise.

TIP

Keep the bow pieces and tuxedo-front pieces grouped separately so assembly is easier.

4

Build the Collar Strap

COVER THE WEBBING TO CREATE A STRONG, NEAT COLLAR BASE.

1

Slide the webbing into the pressed collar strip until centered.

2

Tuck the short ends inward 1/2 in for a clean finish.

3

Clip the fabric closed neatly around the webbing.

4

Topstitch close to both long edges to secure the fabric and create a polished strap.

Finished Collar Strap

Keep stitches straight and parallel for a boutique finish.

5

Sew the Tuxedo Front

BUILD THE PLEATED SHIRT-FRONT PANEL BEFORE ATTACHING THE BOW.

1

Turn under and press the side and bottom edges of the tuxedo front panel.

2

Fold the placket strip, press it, and stitch it neatly down the center.

3

Create evenly spaced pleats for a crisp formal look.

4

Sew on the decorative buttons and press the finished tuxedo front.

7

TIP

Crisp pressing makes the tuxedo front look sharp and formal.

Sew the Bow & Back Loops

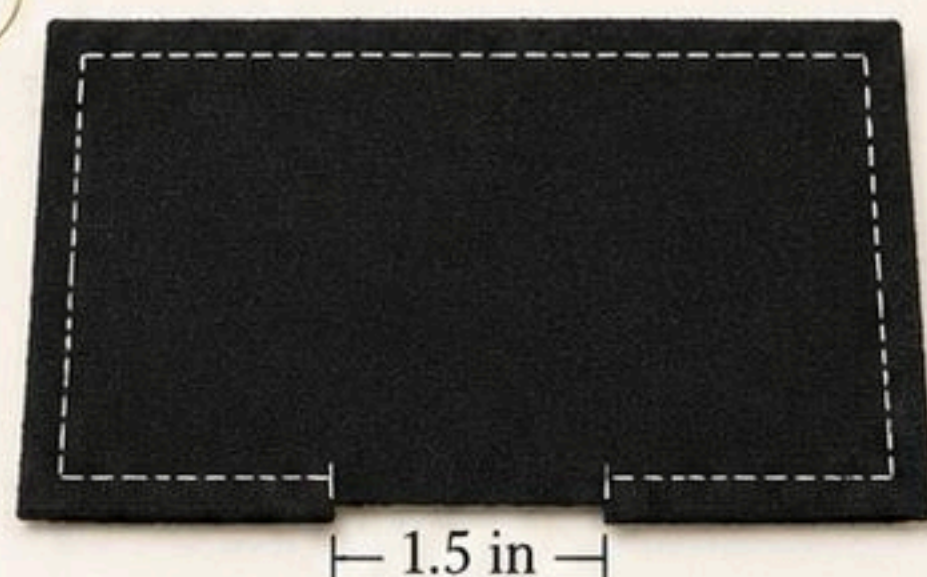

CONSTRUCT THE FORMAL BOW AND ADD THE LOOPS THAT LET THE ACCESSORY SLIDE ONTO THE COLLAR.

1

Place the bow rectangles right sides together and align all edges.

2

Sew around the edges, leaving a 1.5 in opening for turning.

3

Trim, turn, press, and topstitch the bow body.

4

Wrap the center band around the bow and the two loop bands so the finished accessory can slide onto the collar.

Evenly spaced loops keep the tuxedo accessory centered on the collar.

8

Attach the Bow & Check the Sizes

JOIN THE BOW TO THE TUXEDO FRONT, SLIDE THE ACCESSORY ONTO THE COLLAR,
AND CONFIRM THE FINISHED MEASUREMENTS.

1

Center the bow at the top of the tuxedo front and stitch it securely.

2

Unthread one end of the collar and slide the collar strap through both elastic loops.

3
