WHY THE WRAP STAYS NARROW

because every collar is 1 in wide.

CONSTRUCTION TIP

use a lightweight interfacing so the bow keeps shape without becoming stiff.

A STEP-BY-STEP SEWING GUIDE

Sew the Bow Body

BUILD THE BOW BLANK BY SEWING THE OUTER AND LINING
PIECES TOGETHER

1

Fuse the interfacing to the wrong side of the outer bow rectangle.

2

Place the outer and lining right sides together and clip the layers evenly.

3

Stitch around the rectangle with a 1/4 in seam allowance, leaving a 1.5 in opening on one long edge.

4

Trim the corners and reduce bulk so the bow turns cleanly.

RESULT: SEWN BOW BLANK

CLIPPED LAYERS

STITCHED PERIMETER
WITH OPENING

TRIMMED CORNERS
DETAIL

Keep the opening on a long edge so it is easier to turn and press later.

A STEP-BY-STEP SEWING GUIDE

Turn + Press the Bow Blank

FINISH THE SEWN RECTANGLE INTO A CRISP, FLAT BOW BLANK

1

Turn the bow blank right side out through the opening.

2

Gently push out the corners with a blunt tool so the shape becomes clean and even.

3

Fold the opening seam allowance inward and topstitch $\frac{1}{8}$ in around the full rectangle to close it.

4

Press the bow blank flat so the edges are crisp and the rectangle lies smooth.

RESULT: PRESSED BOW BLANK

FRONT FACE

EDGE DETAIL

FLAT FINISHED RECTANGLE

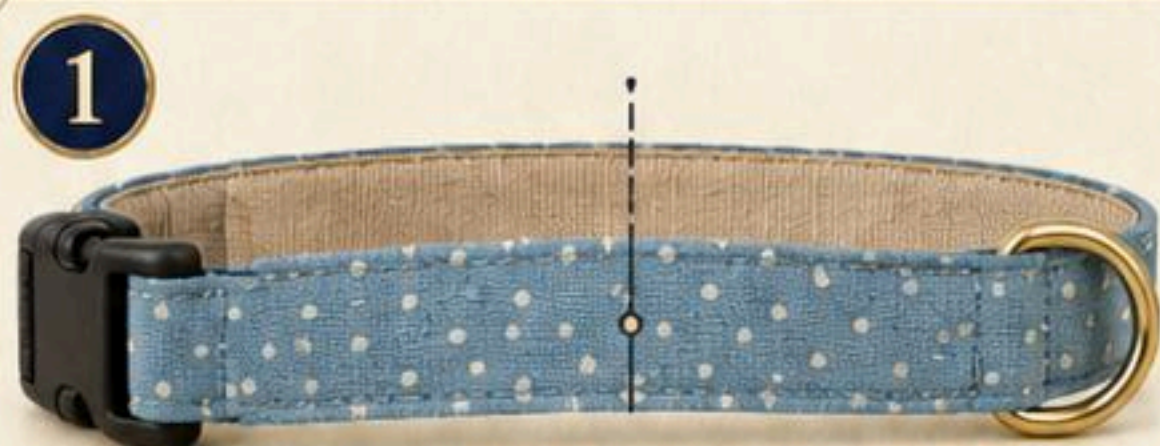

Topstitching closes the opening and helps the bow hold a clean outline.

A STEP-BY-STEP SEWING GUIDE

Shape the Bow Body

PLEAT THE CENTER TO FORM THE CLASSIC BOW SILHOUETTE

Find the center of the finished bow blank and mark it lightly.

Pinch the center into neat accordion pleats so both sides spread evenly.

Hand-tack or machine-baste the center pinch with a few small stitches to hold the shape.

Check that both bow wings match and adjust the pleats until the bow looks balanced.

BOW FRONT VIEW

SYMMETRY CHECK

Center pinch aligned

Both sides evenly spread

Pleats soft but stable

RESULT: SHAPED BOW BODY

Do not over-compress the center; the bow should stay full and soft.

A STEP-BY-STEP SEWING GUIDE

Make the Center Band

CREATE THE SMALL WRAP THAT HOLDS THE BOW SHAPE
AND COVERS THE BACK JOIN

- 1** Cut the center band strip to the size from the cutting chart.

- 2** Fold both long edges inward toward the center and press.

- 3** Fold the strip again into a narrow band and stitch the long edge closed.

- 4** Test-wrap the finished band around the middle of the shaped bow so it is snug but not crushing the bow.

RESULT: FINISHED CENTER BAND

FLAT BAND

NARROW EDGE DETAIL

TEST FIT AROUND BOW

The finished center band should hold the pinch securely while keeping the bow full.

A STEP-BY-STEP SEWING GUIDE

Make the Velcro Back Wrap

BUILD THE REMOVABLE STRAP THAT FASTENS AROUND A 1-INCH COLLAR

1

Fuse the back wrap interfacing to the wrong side of the back wrap outer piece.

2

Place the outer and lining right sides together, stitch around with a small opening, then trim corners.

3

Turn right side out, press flat, and topstitch around the wrap.

4

Sew one hook-and-loop piece near one end and the matching piece near the opposite end so the wrap overlaps neatly around the collar.

BACK WRAP DETAILS

FINISHED FLAT WRAP

FRONT & BACK VIEW
(HOOK-AND-LOOP PLACEMENT)

FRONT (LOOP SIDE)

BACK (HOOK SIDE)

WRAPPED AROUND
1-INCH COLLAR

RESULT: FINISHED VELCRO BACK WRAP

Test the overlap on a 1 in collar so the wrap closes snugly without twisting.

A STEP-BY-STEP SEWING GUIDE

Assemble the Bow + Attach to Collar

JOIN THE BOW BODY, CENTER BAND, AND BACK WRAP
TO CREATE THE FINISHED REMOVABLE ACCESSORY

- 1** Place the finished back wrap horizontally behind the center of the shaped bow.

- 2** Wrap the finished center band around the bow middle and around the center of the back wrap.

- 3** Stitch the center band closed at the back so the back wrap stays anchored at the center.

- 4** Wrap the back wrap around the collar and fasten it; center the bow on the front.

BACK VIEW

The center band is stitched closed, anchoring the back wrap. The hook-and-loop fastener allows for easy attachment and removal.

FRONT VIEW

Bow is centered on the front for a clean, balanced look. Easy to remove for washing or style changes.

RESULT: VELCRO-ATTACH BOW TIE

The wrap should sit flat behind the bow and close cleanly around the collar.

A STEP-BY-STEP SEWING GUIDE

Finished Product + QC

CHECK THE FINAL BOW TIE, CONFIRM FIT, AND PREP IT FOR SELLING.

1

Inspect seam quality and final pressing.

2

Fasten the bow around the collar with the back wrap.

3

Center the bow on the front.

4

Inspect the final finish and attachment security.

QC CHECKLIST

- ✓ Seams neat and even
- ✓ Bow shape centered
- ✓ Center band secure
- ✓ Back wrap stitched straight
- ✓ Hook-and-loop aligned correctly
- ✓ Wrap fits 1 in collar snugly
- ✓ Bow sits flat on collar front
- ✓ Inside circumference matches size

SELLER NOTES

- Stock the collar sets in 12 in, 16 in, and 20 in sizes.
- List the bow as a removable Velcro-attach accessory.
- Show both front and back listing photos.
- Mention that the bow can be removed for style changes.
- Press the bow before packaging.

CARE — Spot clean only. Air dry flat.
