LACE TRIM COLLAR SEWING GUIDE

YOU'LL NEED

FINISHED DESIGN

SELLER TIP

Soft lace trim gives a plain collar a more delicate, boutique look while keeping the collar practical and sellable.

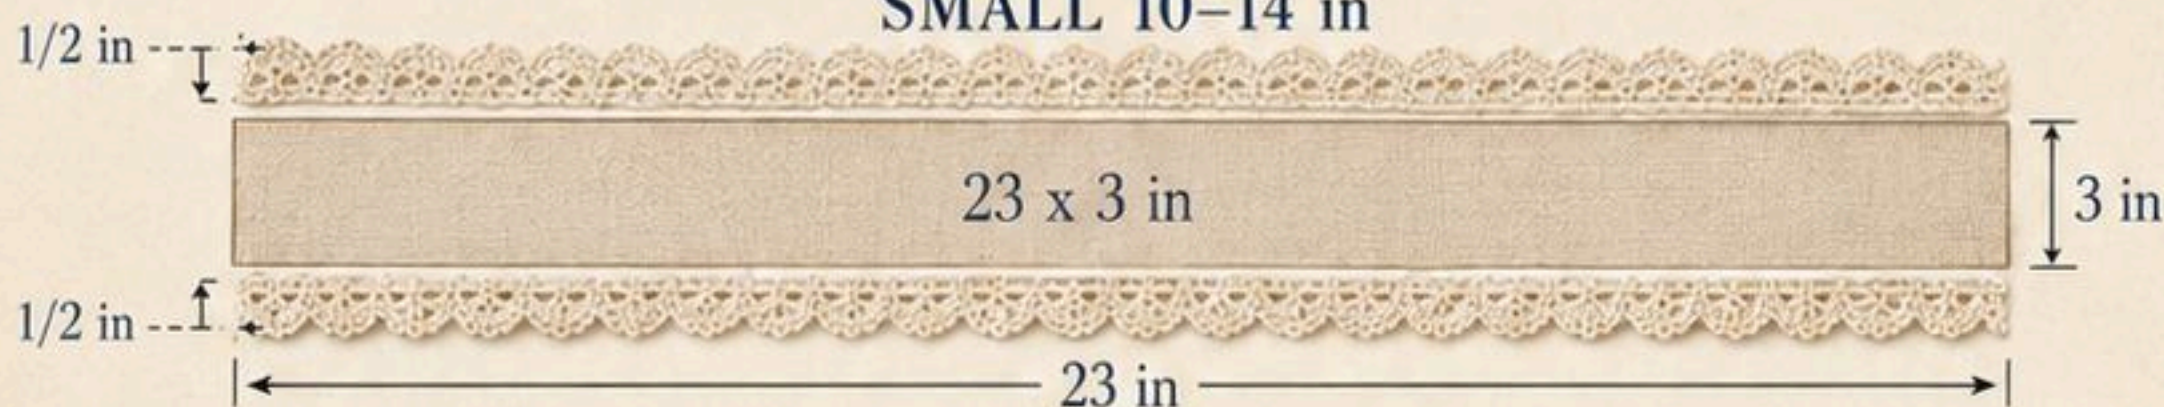

Size Chart & Cut List

STANDARD SELLING SIZES FOR THE COLLAR BASE AND LACE TRIM

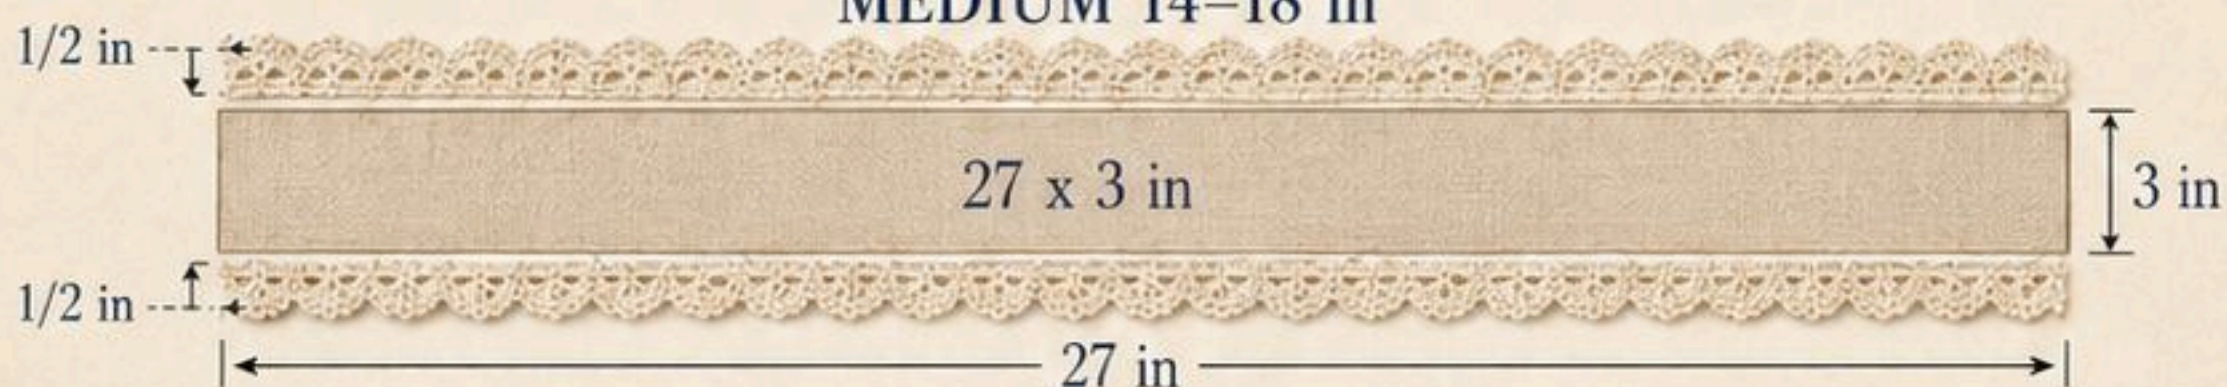

Measurement	Small 10–14 in	Medium 14–18 in	Large 18–22 in
Neck range	10–14 in	14–18 in	18–22 in
Nylon webbing	22 in	26 in	30 in
Outer fabric strip to cover webbing	23 x 3 in	27 x 3 in	31 x 3 in
Lace trim (cut 2)	22 x 1/2 in	26 x 1/2 in	30 x 1/2 in

PATTERN PIECE DIAGRAMS

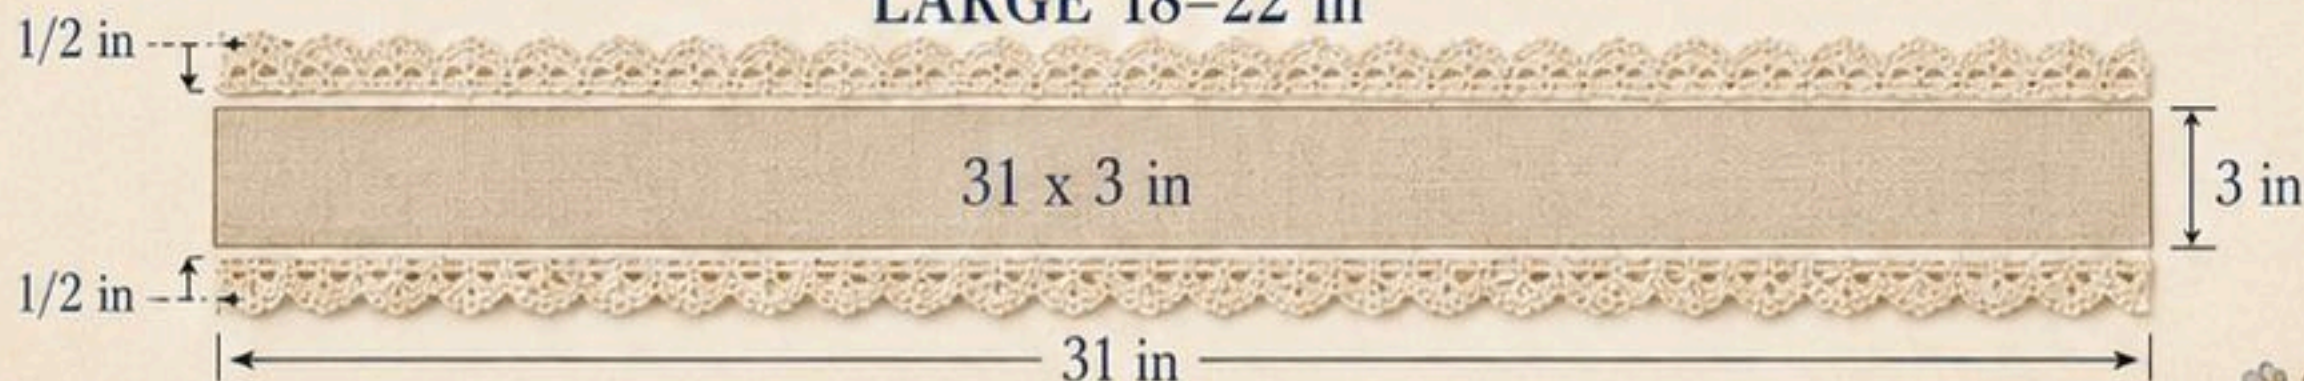

SMALL 10–14 in

MEDIUM 14–18 in

LARGE 18–22 in

Leave 1/2 in clear at each
short end before the lace begins.

All seam allowances
are 1/4 in unless noted.

Cut & Prepare the Pieces

GET ACCURATE CUTS AND PREP TO BUILD
A NEAT, SELLABLE COLLAR

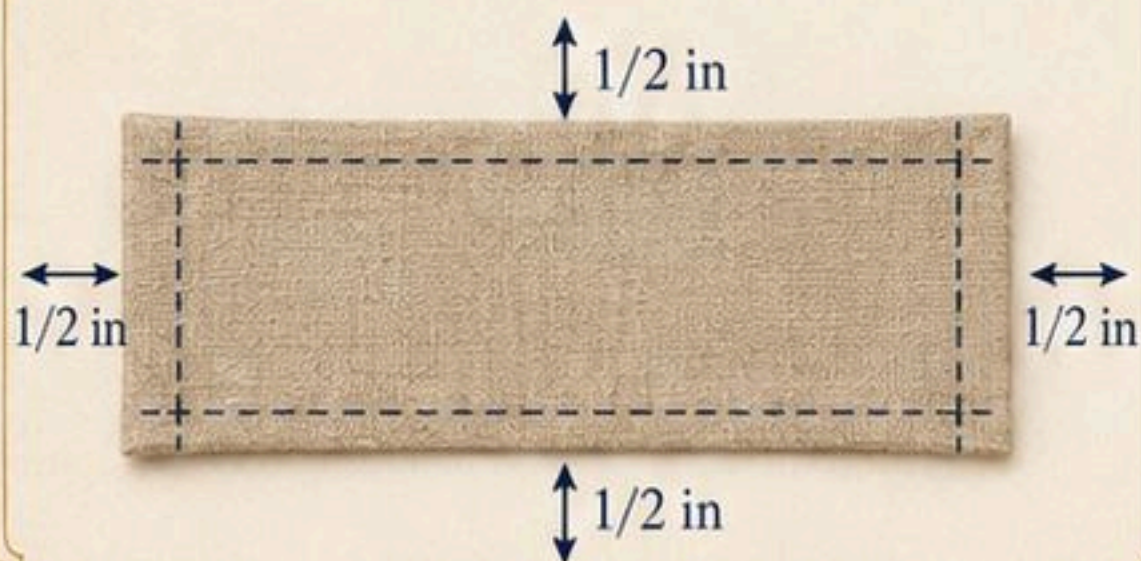

- 1** Cut the outer fabric strip, two lace trim pieces, and the nylon webbing using the size chart.

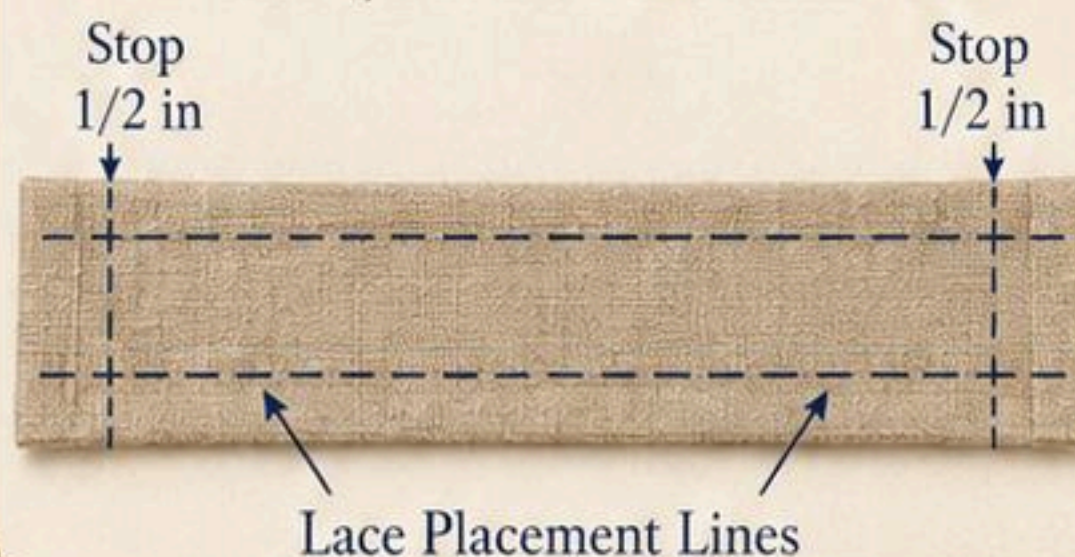

- 2** Lightly heat-seal the nylon webbing ends to prevent fraying. Keep the lace ends and fabric ends trimmed square and neat.

- 3** Press the outer fabric strip: fold each long side inward by 1/2 in, and fold each short end under by 1/2 in.

- 4** Mark lace placement lines so one lace trim sits near each long edge, and mark stop points so the lace begins and ends 1/2 in from each short end.

SELLER TIP

Clean prep makes the lace sit evenly and keeps the finished collar polished.

Place the Lace Trim

POSITION BOTH LACE EDGES BEFORE SEWING

1

Lay the first lace strip along one long edge of the prepared outer fabric strip, with the decorative lace edge extending slightly beyond the collar edge.

2

Place the second lace strip along the opposite long edge in the same way.

3

Use clips or pins to hold both lace strips flat, smooth, and even.

4

Check that both sides mirror each other and that the lace begins and ends 1/2 in from each short end.

PREPARED LACE-TRIM PANEL (BEFORE SEWING)

Symmetry is the key to a pretty, balanced collar.

5

Sew the Lace Trim

ATTACH THE LACE SECURELY AND KEEP IT FLAT

1

Topstitch along the straight header edge of the first lace strip from end to end.

2

Topstitch along the straight header edge of the second lace strip from end to end.

3

Keep both rows of stitching straight so the lace sits smooth and secure.

4

Check that both lace edges lie flat and that no puckers form along the strip.

COMPLETED LACE-TRIM PANEL

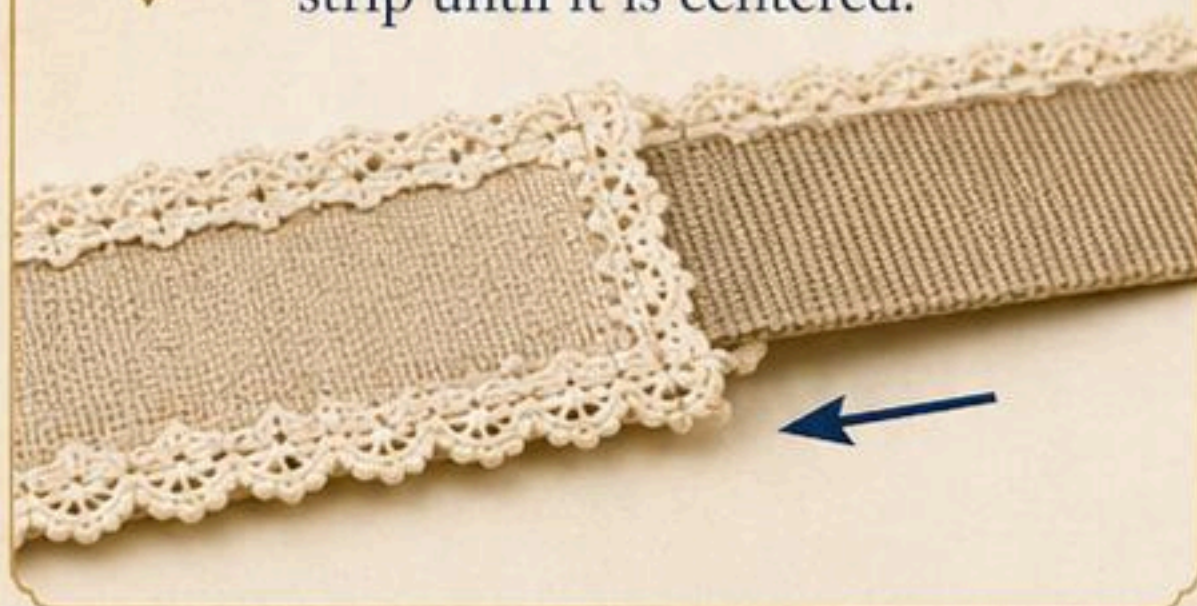

Straight stitching keeps delicate lace neat and durable.

Build the Collar Strap

CREATE A STRONG BASE WHILE KEEPING THE LACE VISIBLE

1

Slide the 1 in nylon webbing inside the lace-trimmed fabric strip until it is centered.

2

Fold the short ends neatly over the webbing so no raw edges or loose lace ends show.

3

Hold the strap closed around the webbing using clips.

4

Topstitch close to both long edges and neatly across the short ends to make the finished strap.

COMPLETED STRAP (BEFORE HARDWARE)

Even topstitching keeps the strap strong, secure, and elegant.

Add the Hardware

FOLLOW THE HARDWARE ORDER BELOW

- 1** Thread one end of the strap through the triglide slider, fold back 1.5 in, and stitch securely.

- 2** Thread the opposite end through the male side-release buckle and stitch a secure box-X.

- 3** Thread the free end through the D-ring, then through the female side-release buckle.

- 4** Bring the free end back through the triglide to create the adjustable tail.

Check that the collar adjusts smoothly to
S 10–14 in, M 14–18 in, and L 18–22 in.

Finish the Collar

1

Fasten the collar and lay it flat so you can inspect the overall shape.

2

Check that the lace runs evenly along both edges and that all stitch lines are straight.

3

Trim loose threads and reinforce any weak stitching if needed, especially near the hardware folds and lace ends.

4

Give the collar a final light press so the strap lies smooth and the lace lies flat.

A smooth strap and balanced lace edges make the finished collar look professional.

Check the Sizes & Quality Check

- 1** Set the collar to its smallest setting and measure the inside circumference flat.

10 in

- 2** Set the collar to its largest setting and measure the inside circumference flat.

22 in

- 3** Compare the finished collar to the size chart and label it clearly for selling.

FINISHED SELLING SIZES

Size	Neck (adjustable)	Lace trim (cut 2)	Outer fabric strip
Small	10–14 in	22 x 1/2 in	23 x 3 in
Medium	14–18 in	26 x 1/2 in	27 x 3 in
Large	18–22 in	30 x 1/2 in	31 x 3 in

QUALITY CHECKLIST

- Stitches are straight
- Hardware is secure
- Lace is even on both sides
- No raw edges visible
- Adjustment range is correct
- Collar lies flat

CARE INSTRUCTIONS

- ✿ Spot clean with mild soap and water.
- ✿ Air dry flat. Reshape if needed.
- ✿ Avoid rough pulling on the lace trim.

SELLER NOTE

List the neck size in your product title or description, and mention the lace color or style so buyers know exactly what they are getting.
