LARGE	24 in x 1 in	25 in x 2 in	25 in x 2 in	25 in x 2 in

WHY THE FABRIC IS 1 INCH LONGER

The extra 1 inch allows both short ends to turn inward by 1/2 inch, creating clean, finished ends with no raw edges showing.

STITCHING

Use a 3.0 mm straight stitch for all seams. Reinforce all hardware attachment points with strong box-X stitches for maximum strength and durability.

Sew the Reversible Tube

JOIN THE 2 FABRIC STRIPS RIGHT SIDES TOGETHER

- 1** Place Fabric A and Fabric B right sides together, aligned edge to edge.

- 2** Clip or pin the 2 strips together along both long edges.

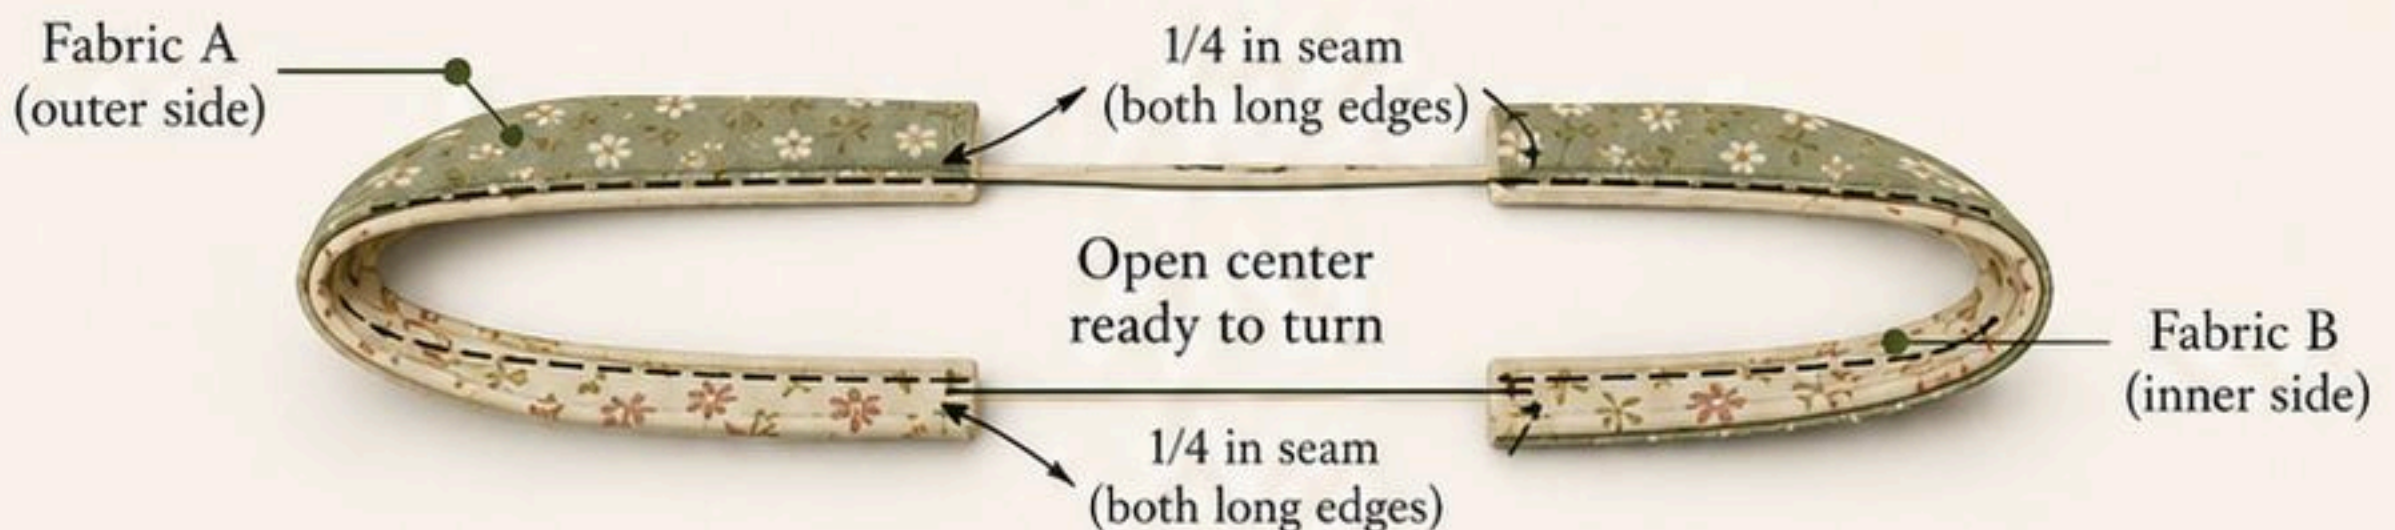

- 3** Sew both long edges with a 1/4 in seam allowance. Leave both short ends open.

- 4** This is your inside-out tube with both long seams sewn and open ends.

TUBE CROSS-SECTION

TIP

Keep both fabrics aligned so the collar edges stay even after turning.

Turn + Press the Tube

TURN THE SEWN TUBE RIGHT SIDE OUT AND PREPARE THE ENDS

1

Turn the sewn tube right side out so Fabric A becomes one face and Fabric B becomes the opposite face.

2

Gently shape the tube and smooth the seams so one fabric stays on each face.

3

Press the tube flat with an iron.

4

Fold both short ends inward by 1/2 in and press them flat.

PRESSING TIP

Crisp pressing gives cleaner edges and a more professional reversible finish.

Insert the Webbing + Topstitch

SLIDE THE WEBBING INSIDE THE REVERSIBLE STRAP AND STITCH BOTH EDGES

- 1 Slide the 1 in olive webbing inside the pressed reversible tube.

- 2 Center the webbing so the folded fabric ends cover the webbing ends equally.

- 3 Clip the strap flat and keep the webbing centered.

- 4 Topstitch both long edges about 1/8 in from the edge to secure the reversible strap around the webbing.

The webbing provides strength while the 2 fabrics create the reversible look.

Attach the Male Buckle

SECURE ONE END WITH A STRONG BOX-X STITCH

- 1 Slide one end of the reversible covered strap through the male buckle slot.

- 2 Fold the tail back by 1.5 in.

- 3 Clip or hold the fold flat.

- 4 Sew a 1 in x 1 in box with an X through all layers.

- ✓ Keep the strap flat — no twist.

- ✓ Make sure the same fabric face stays on the same side of the buckle.

Attach the Female Buckle + D-Ring

THREAD THE LAST END CORRECTLY BEFORE SEWING THE FINAL BOX-X

- 1** Slide the gold welded D-ring onto the strap end.

- 2** Pass the strap end through the female buckle slot.

- 3** Fold the tail back by 2.25 in so the D-ring sits inside the loop.

- 4** Sew a 1 in x 1 in box-X through the folded tail.

CHECKPOINT

Buckle halves snapped together.
Collar lays flat and is not twisted.

Keep all hardware facing the same direction.
