

PARACORD DOG COLLAR

Guide

LOVE KNOT TECHNIQUE

• STEP-BY-STEP TUTORIAL •

HANDMADE
WITH LOVE

COMFORTABLE
& STRONG

ELEGANT
& MODERN

WELCOME

LET'S GET STARTED!

In this guide, you'll learn how to create a beautiful, handmade paracord dog collar using the love knot technique.

- ♥ **SIMPLE & FUN:** Just a few tools, a few colors, and a repeating knot pattern.
- ♥ **BEAUTIFUL & CUSTOMIZABLE:** Mix and match colors to create a look that's uniquely yours.
- ♥ **STRONG & STYLISH:** Designed to be both durable and elegant for your furry friend.

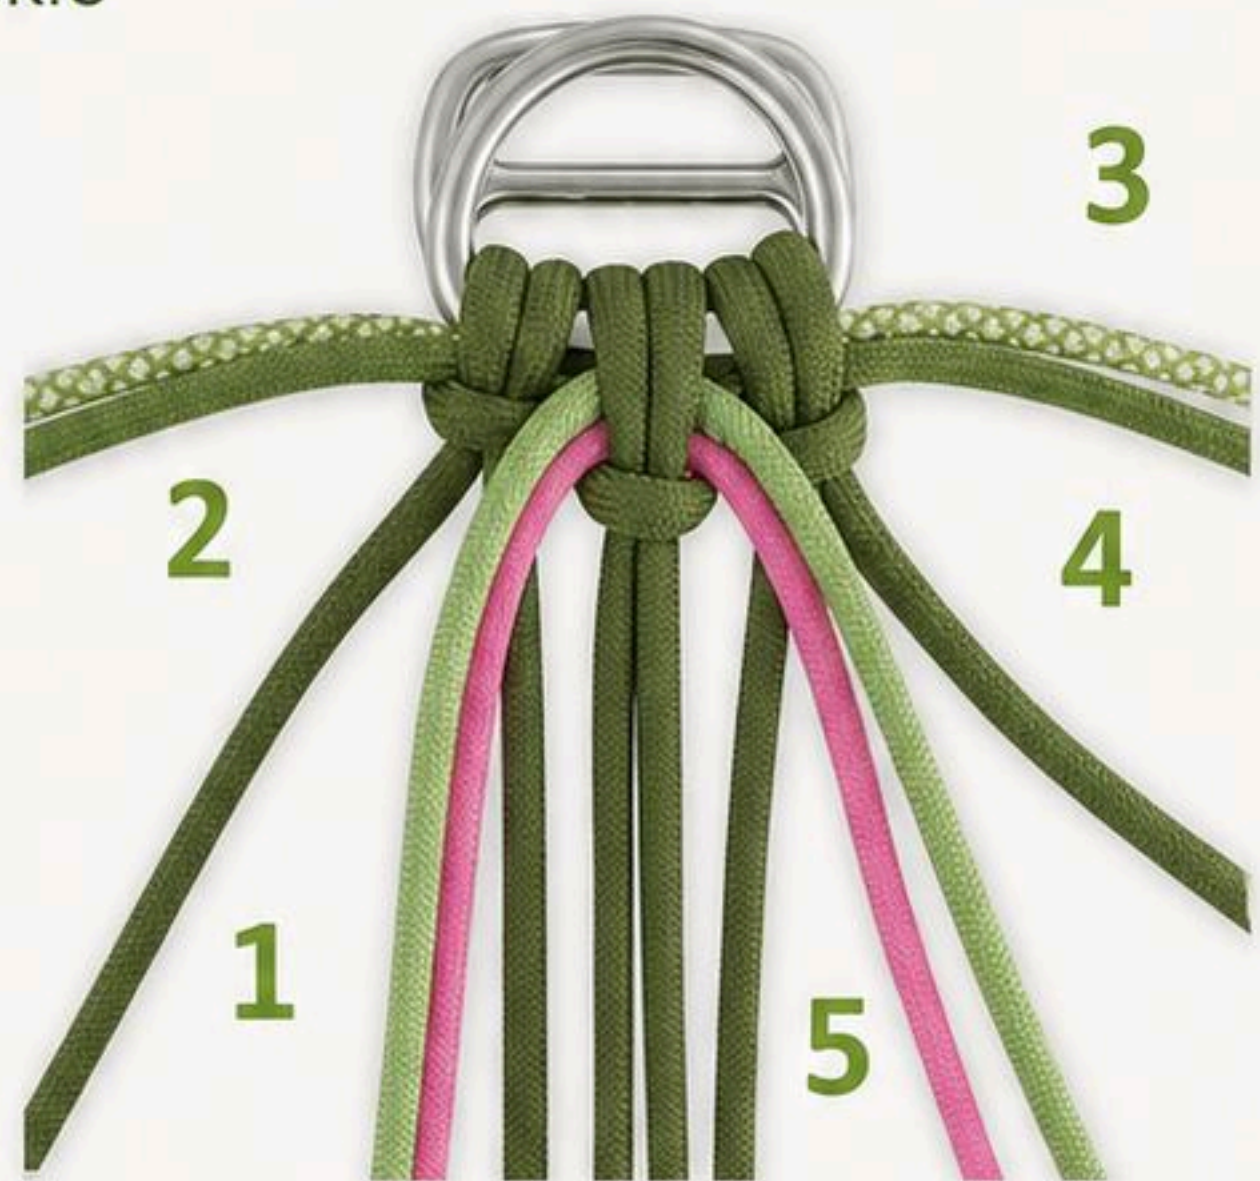

By the end of this guide, you'll have a collar that's not only stylish and strong, but also *made with love.*

MATERIALS

Needed

- 5 colors of 550 paracord
(Color 1: olive green, Color 2: moss green, Color 3: guacamole santo, Color 4: green pepper and Color 5: pink).
- Side release buckle or buckle whichever you prefer.
- 20mm D-ring (optional).
- Adhesive tape.
- Measuring tape.
- Scissors.
- Lighter.

Guide

LOVE KNOT TECHNIQUE

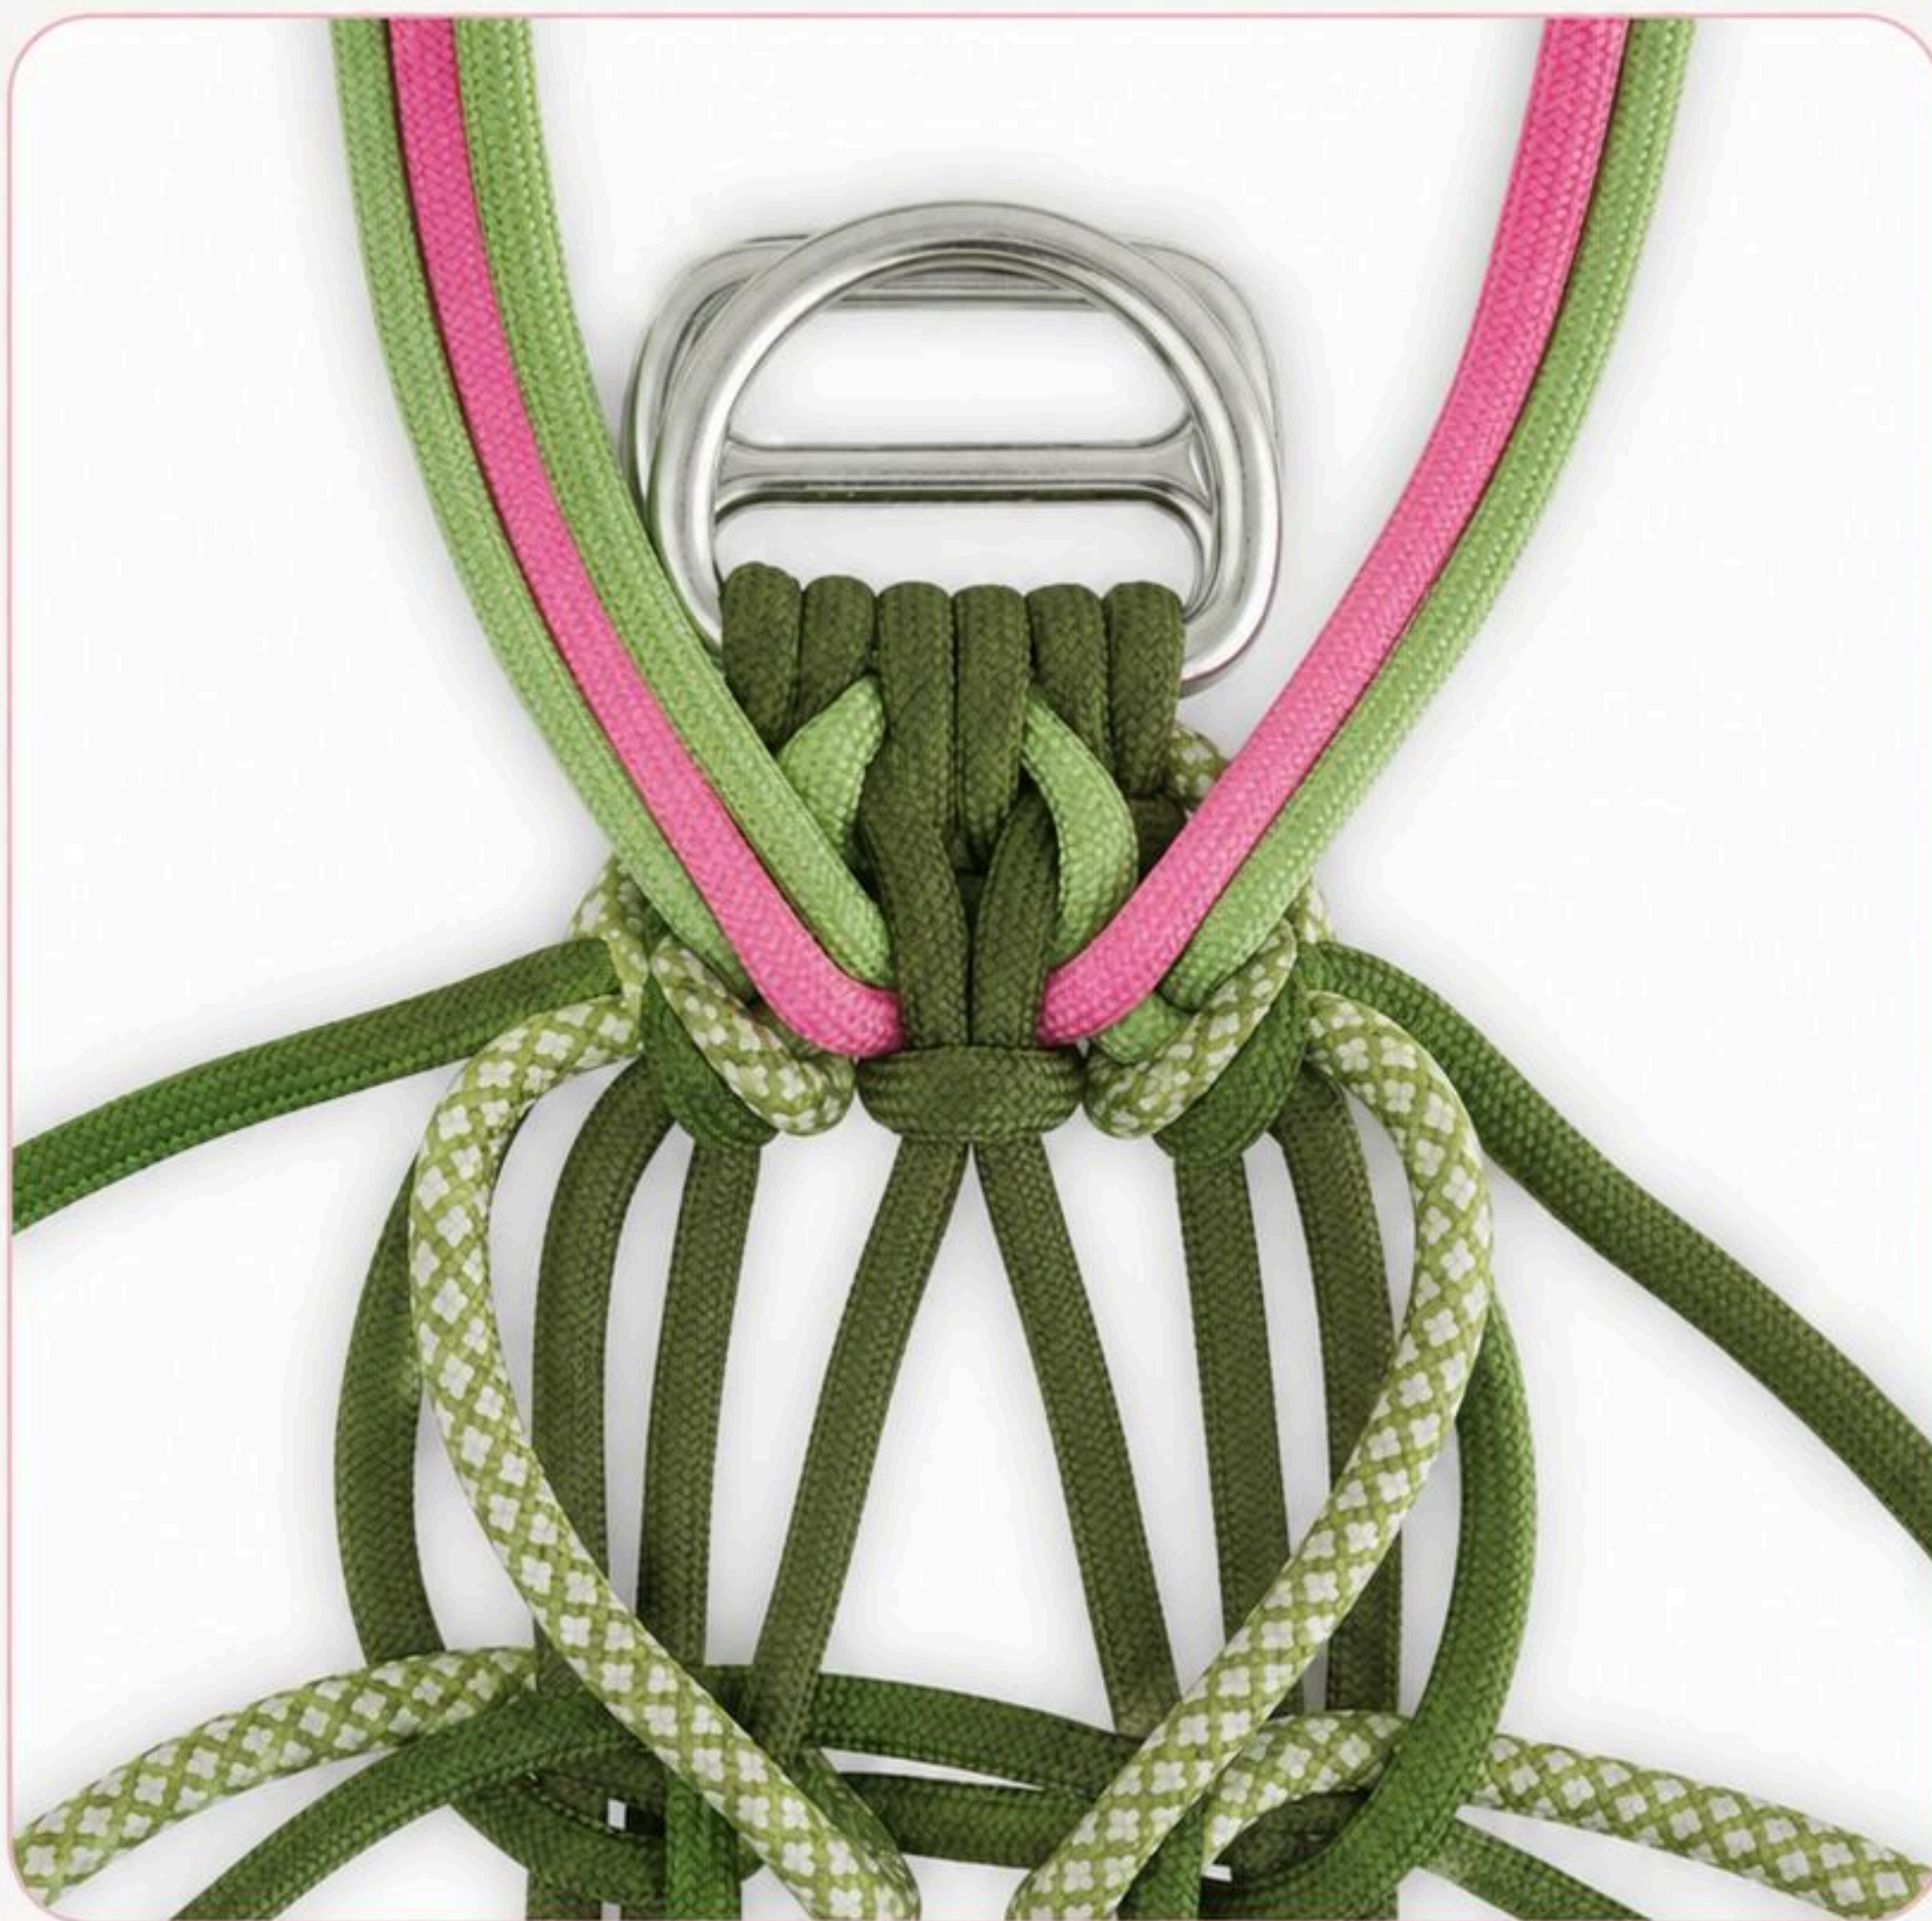

Step 1 — Prepare Your Rope

1

After setting up the cords and adding the colors, check that the working length and placement are correct before continuing.

STEP 2

Bring the pink and light-green working cords upward along the outside, keeping both sides even.

STEP 3

Separate the cords and begin forming the first interlaced knot, keeping the center cords aligned.

STEP 4

Guide the side cords outward
and shape the loops evenly on
both sides of the center.

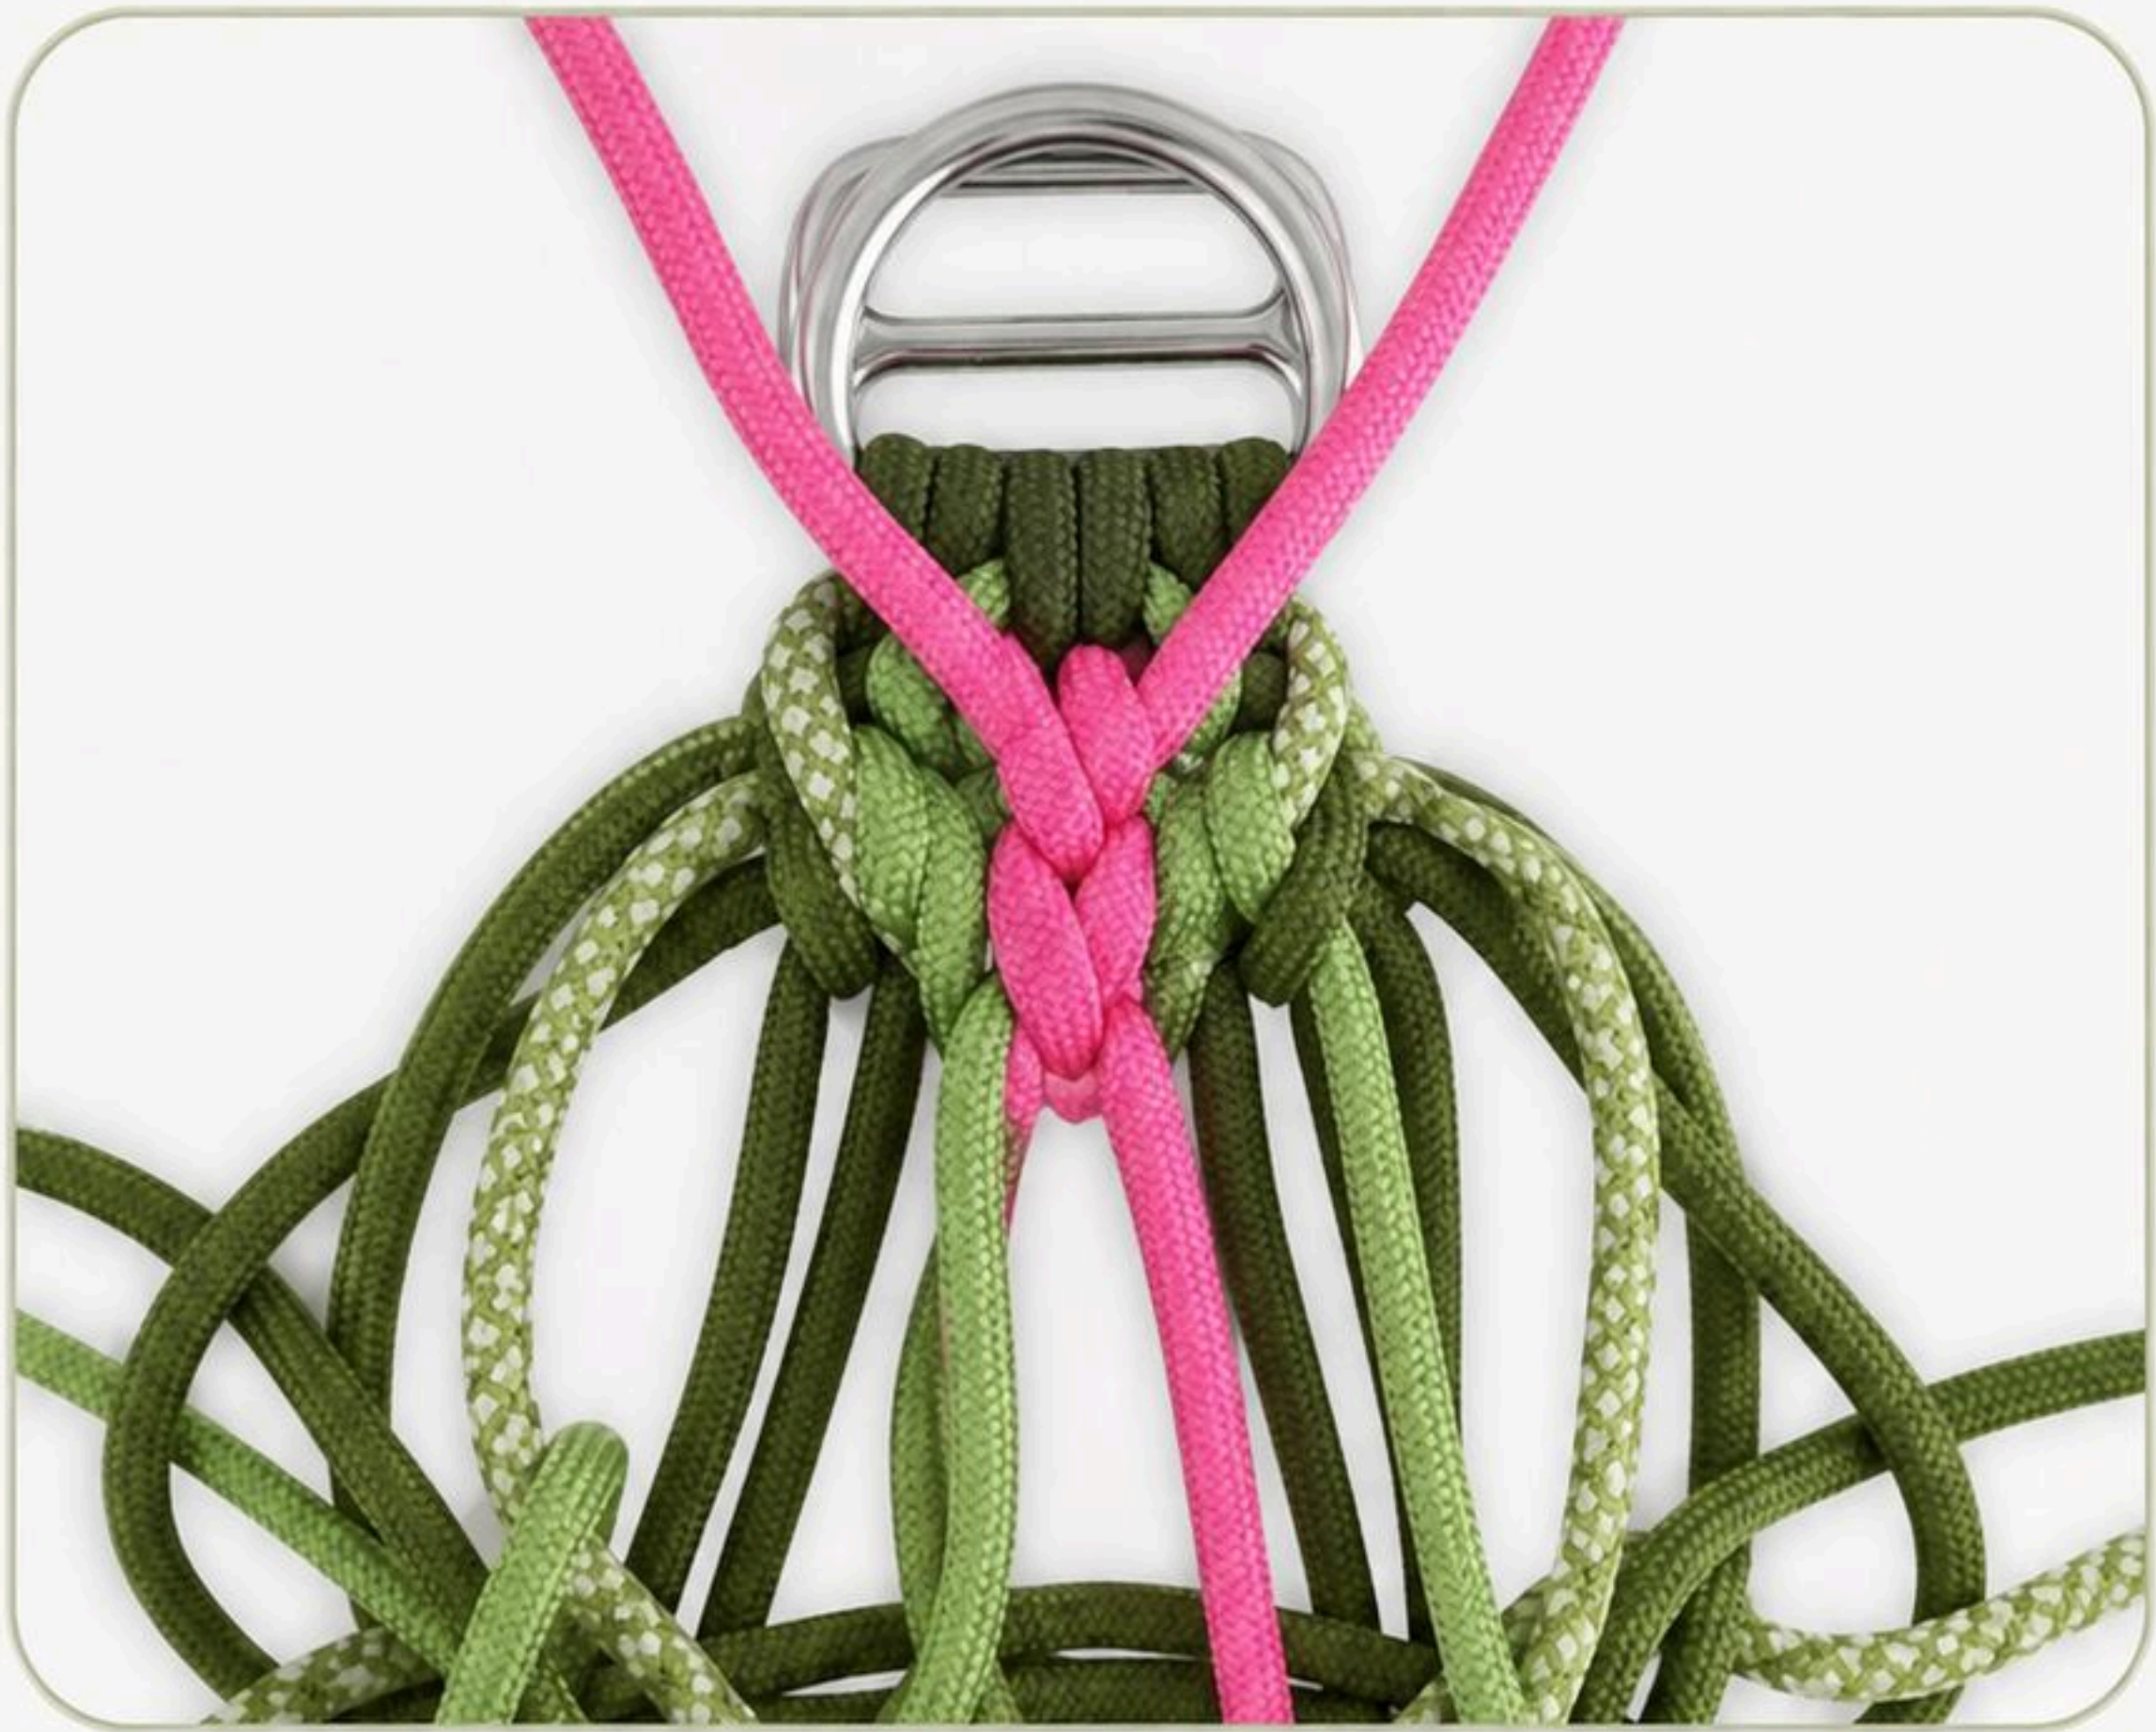

STEP 5

Pass the pink cords down through the upper openings while keeping the weave centered and untwisted.

Step 6

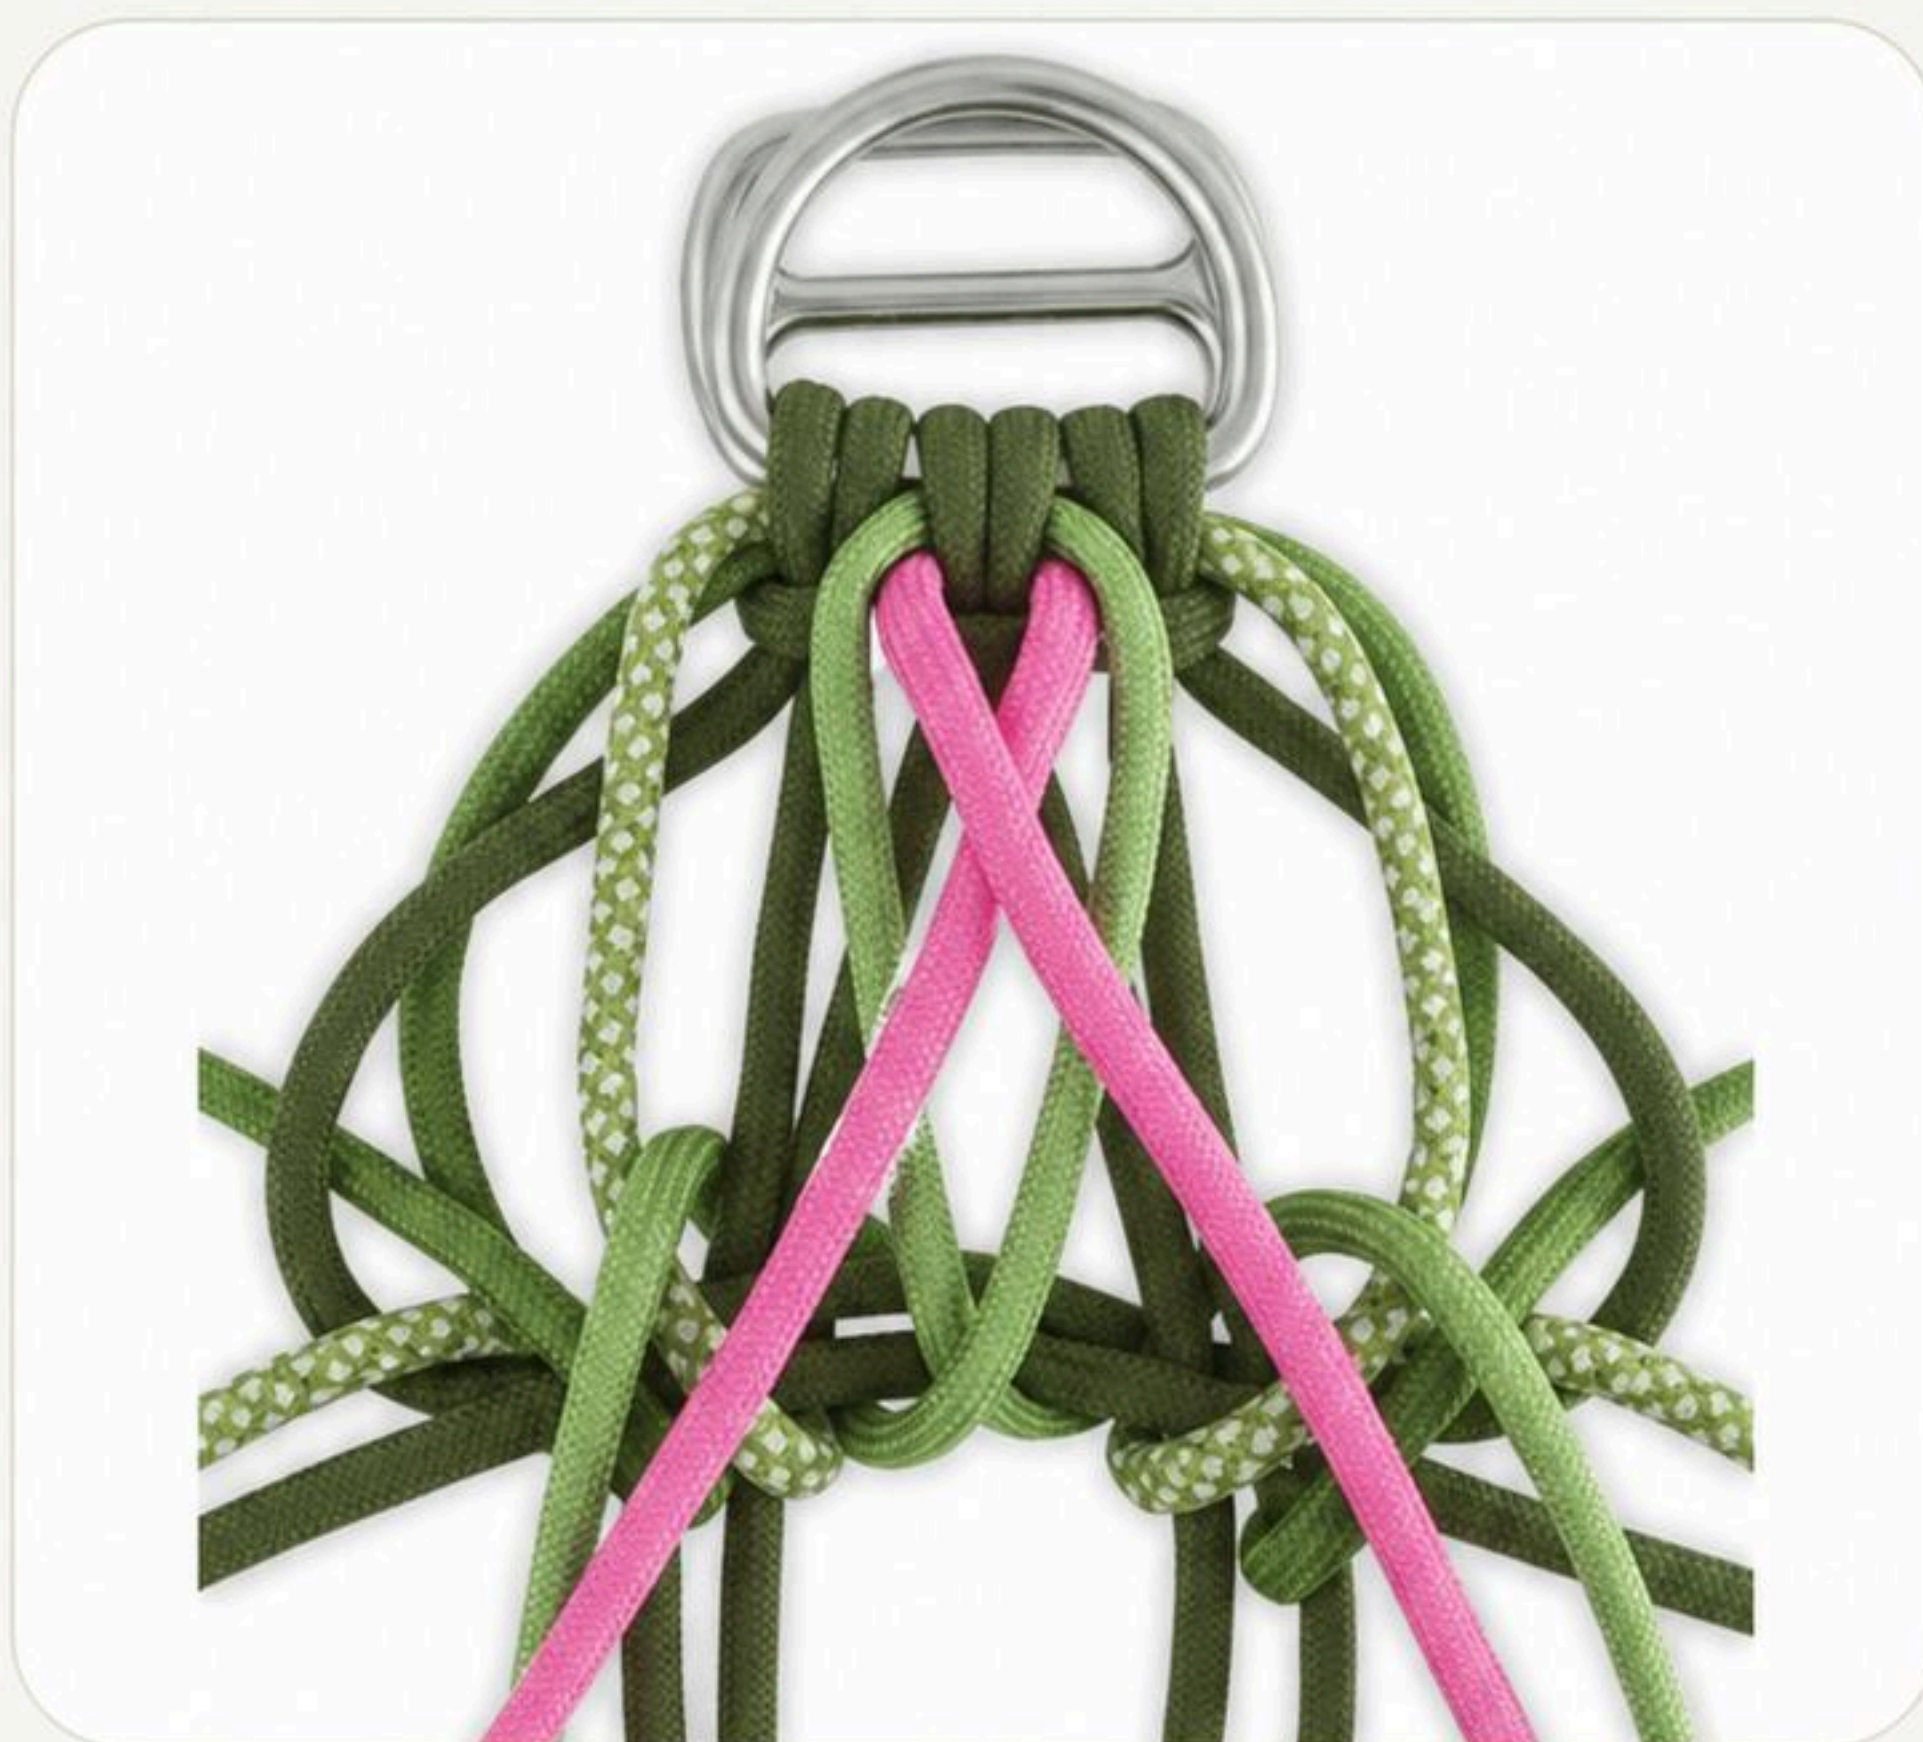

Pull the pink cords upward to tighten the center section and neaten the knot.

Step

7

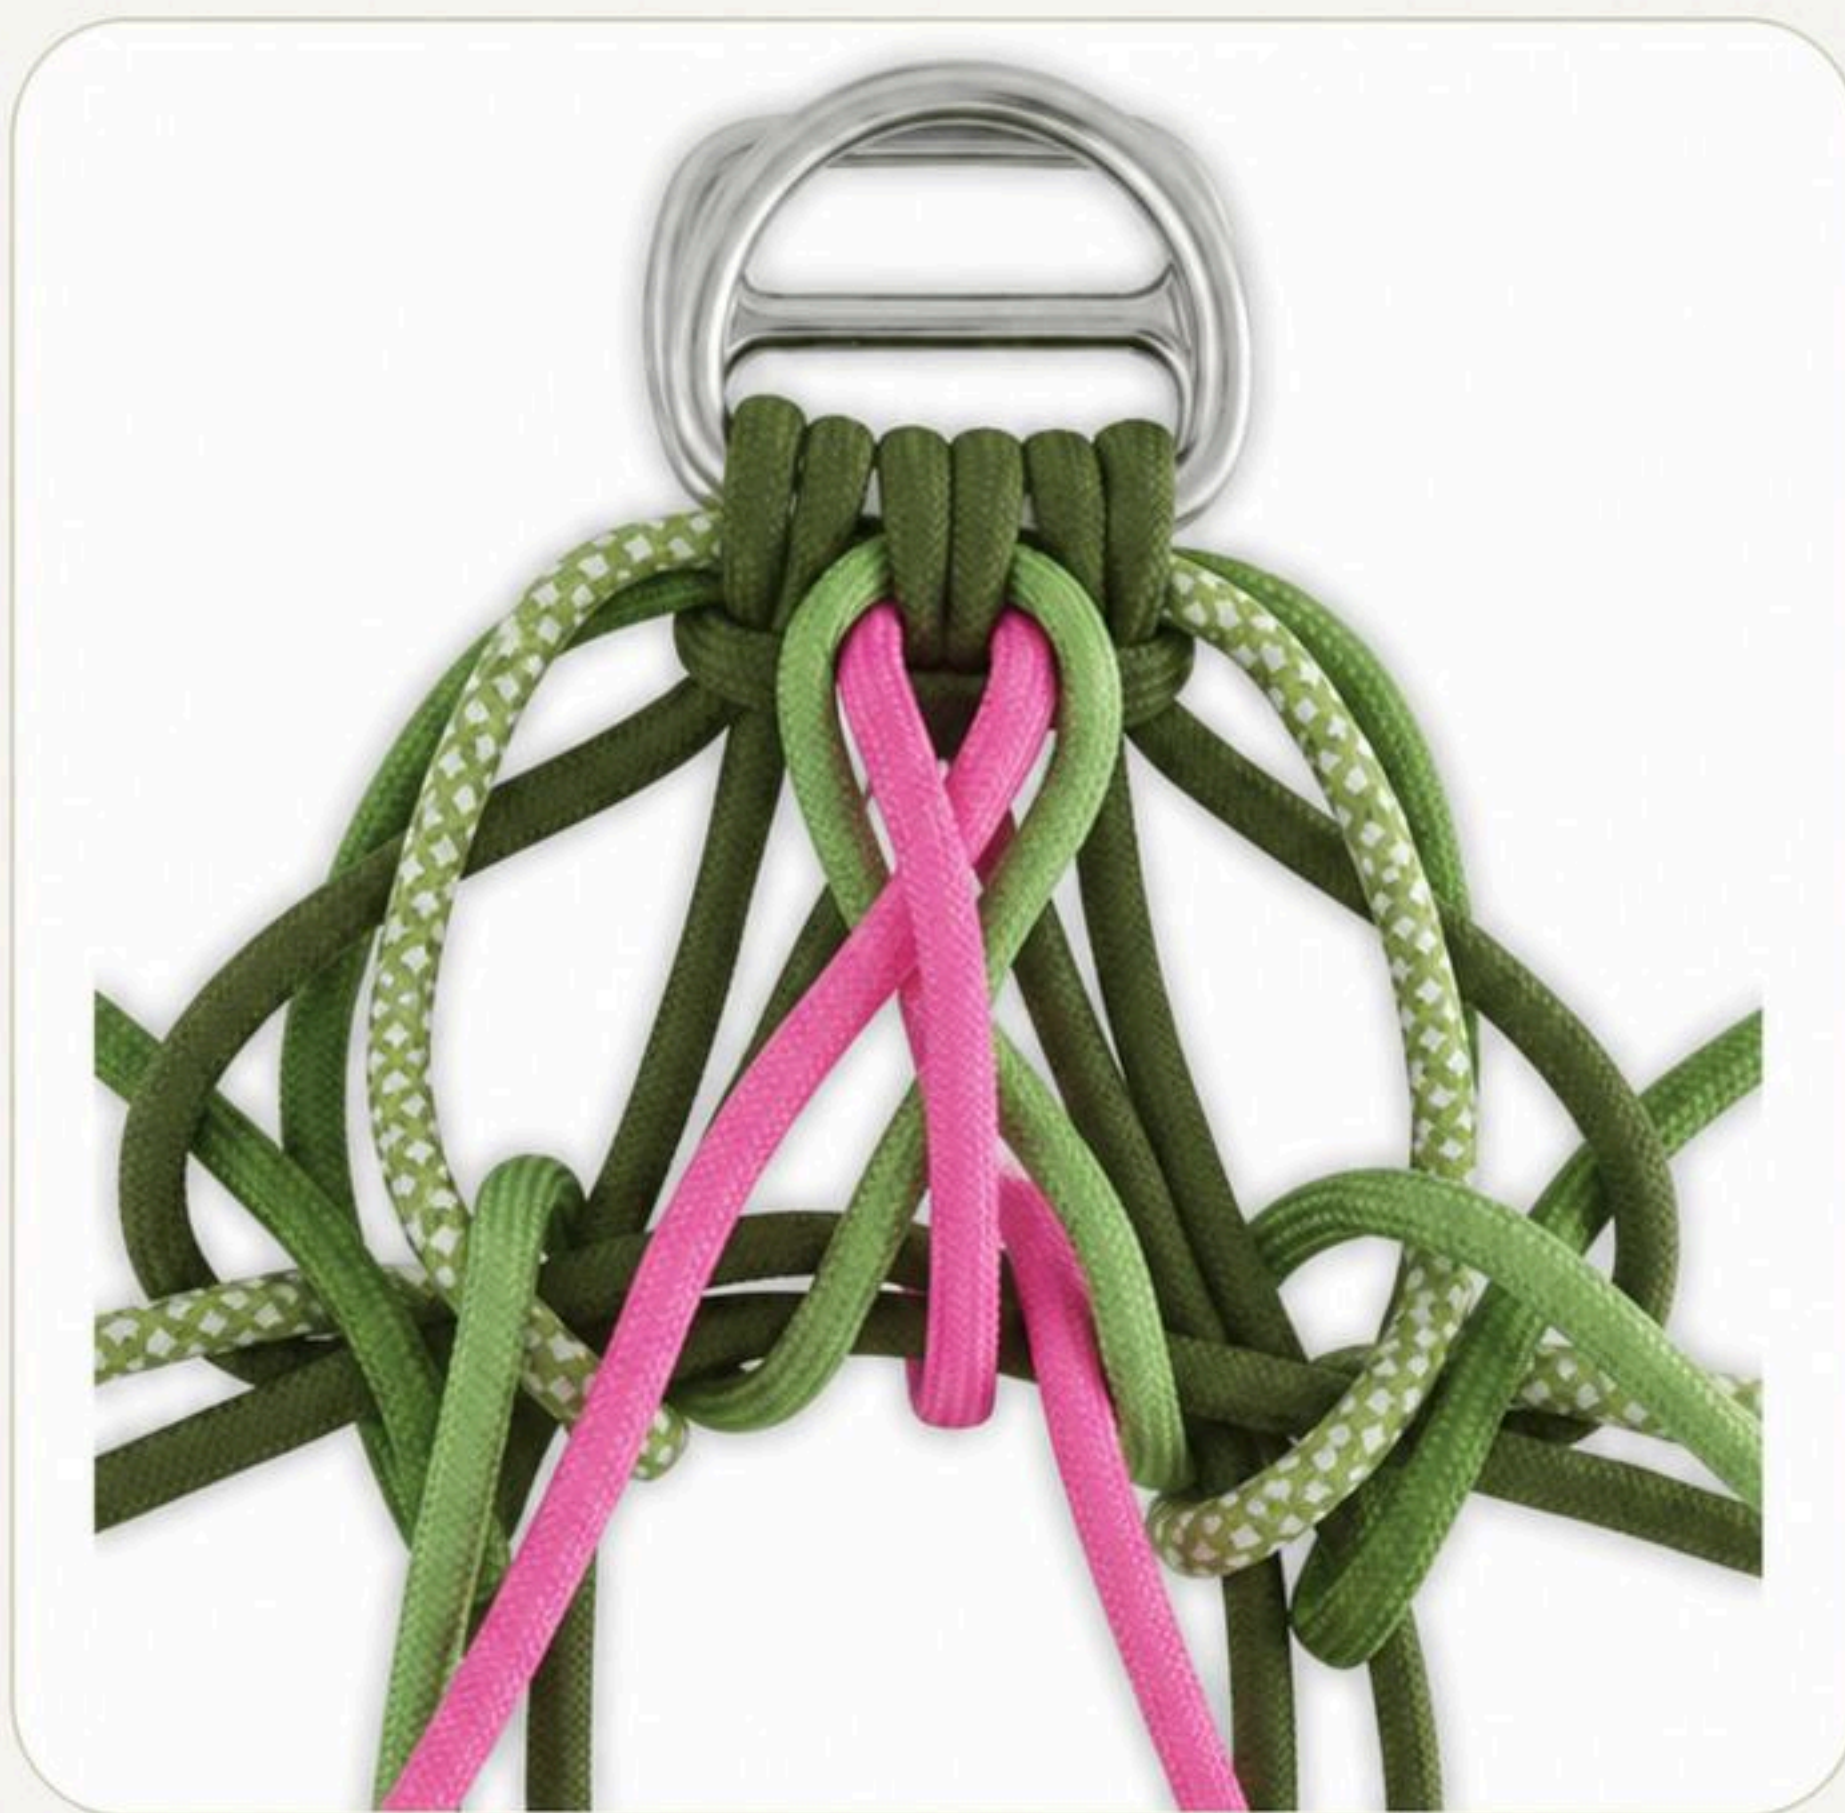

Cross the pink cords over the front
to begin the next repeating knot sequence.

STEP

8

Cross the pink cords inward
through the center to continue the repeating weave.

STEP 9

Bring the center pink cords downward
and neaten both side knots evenly.

STEP 10

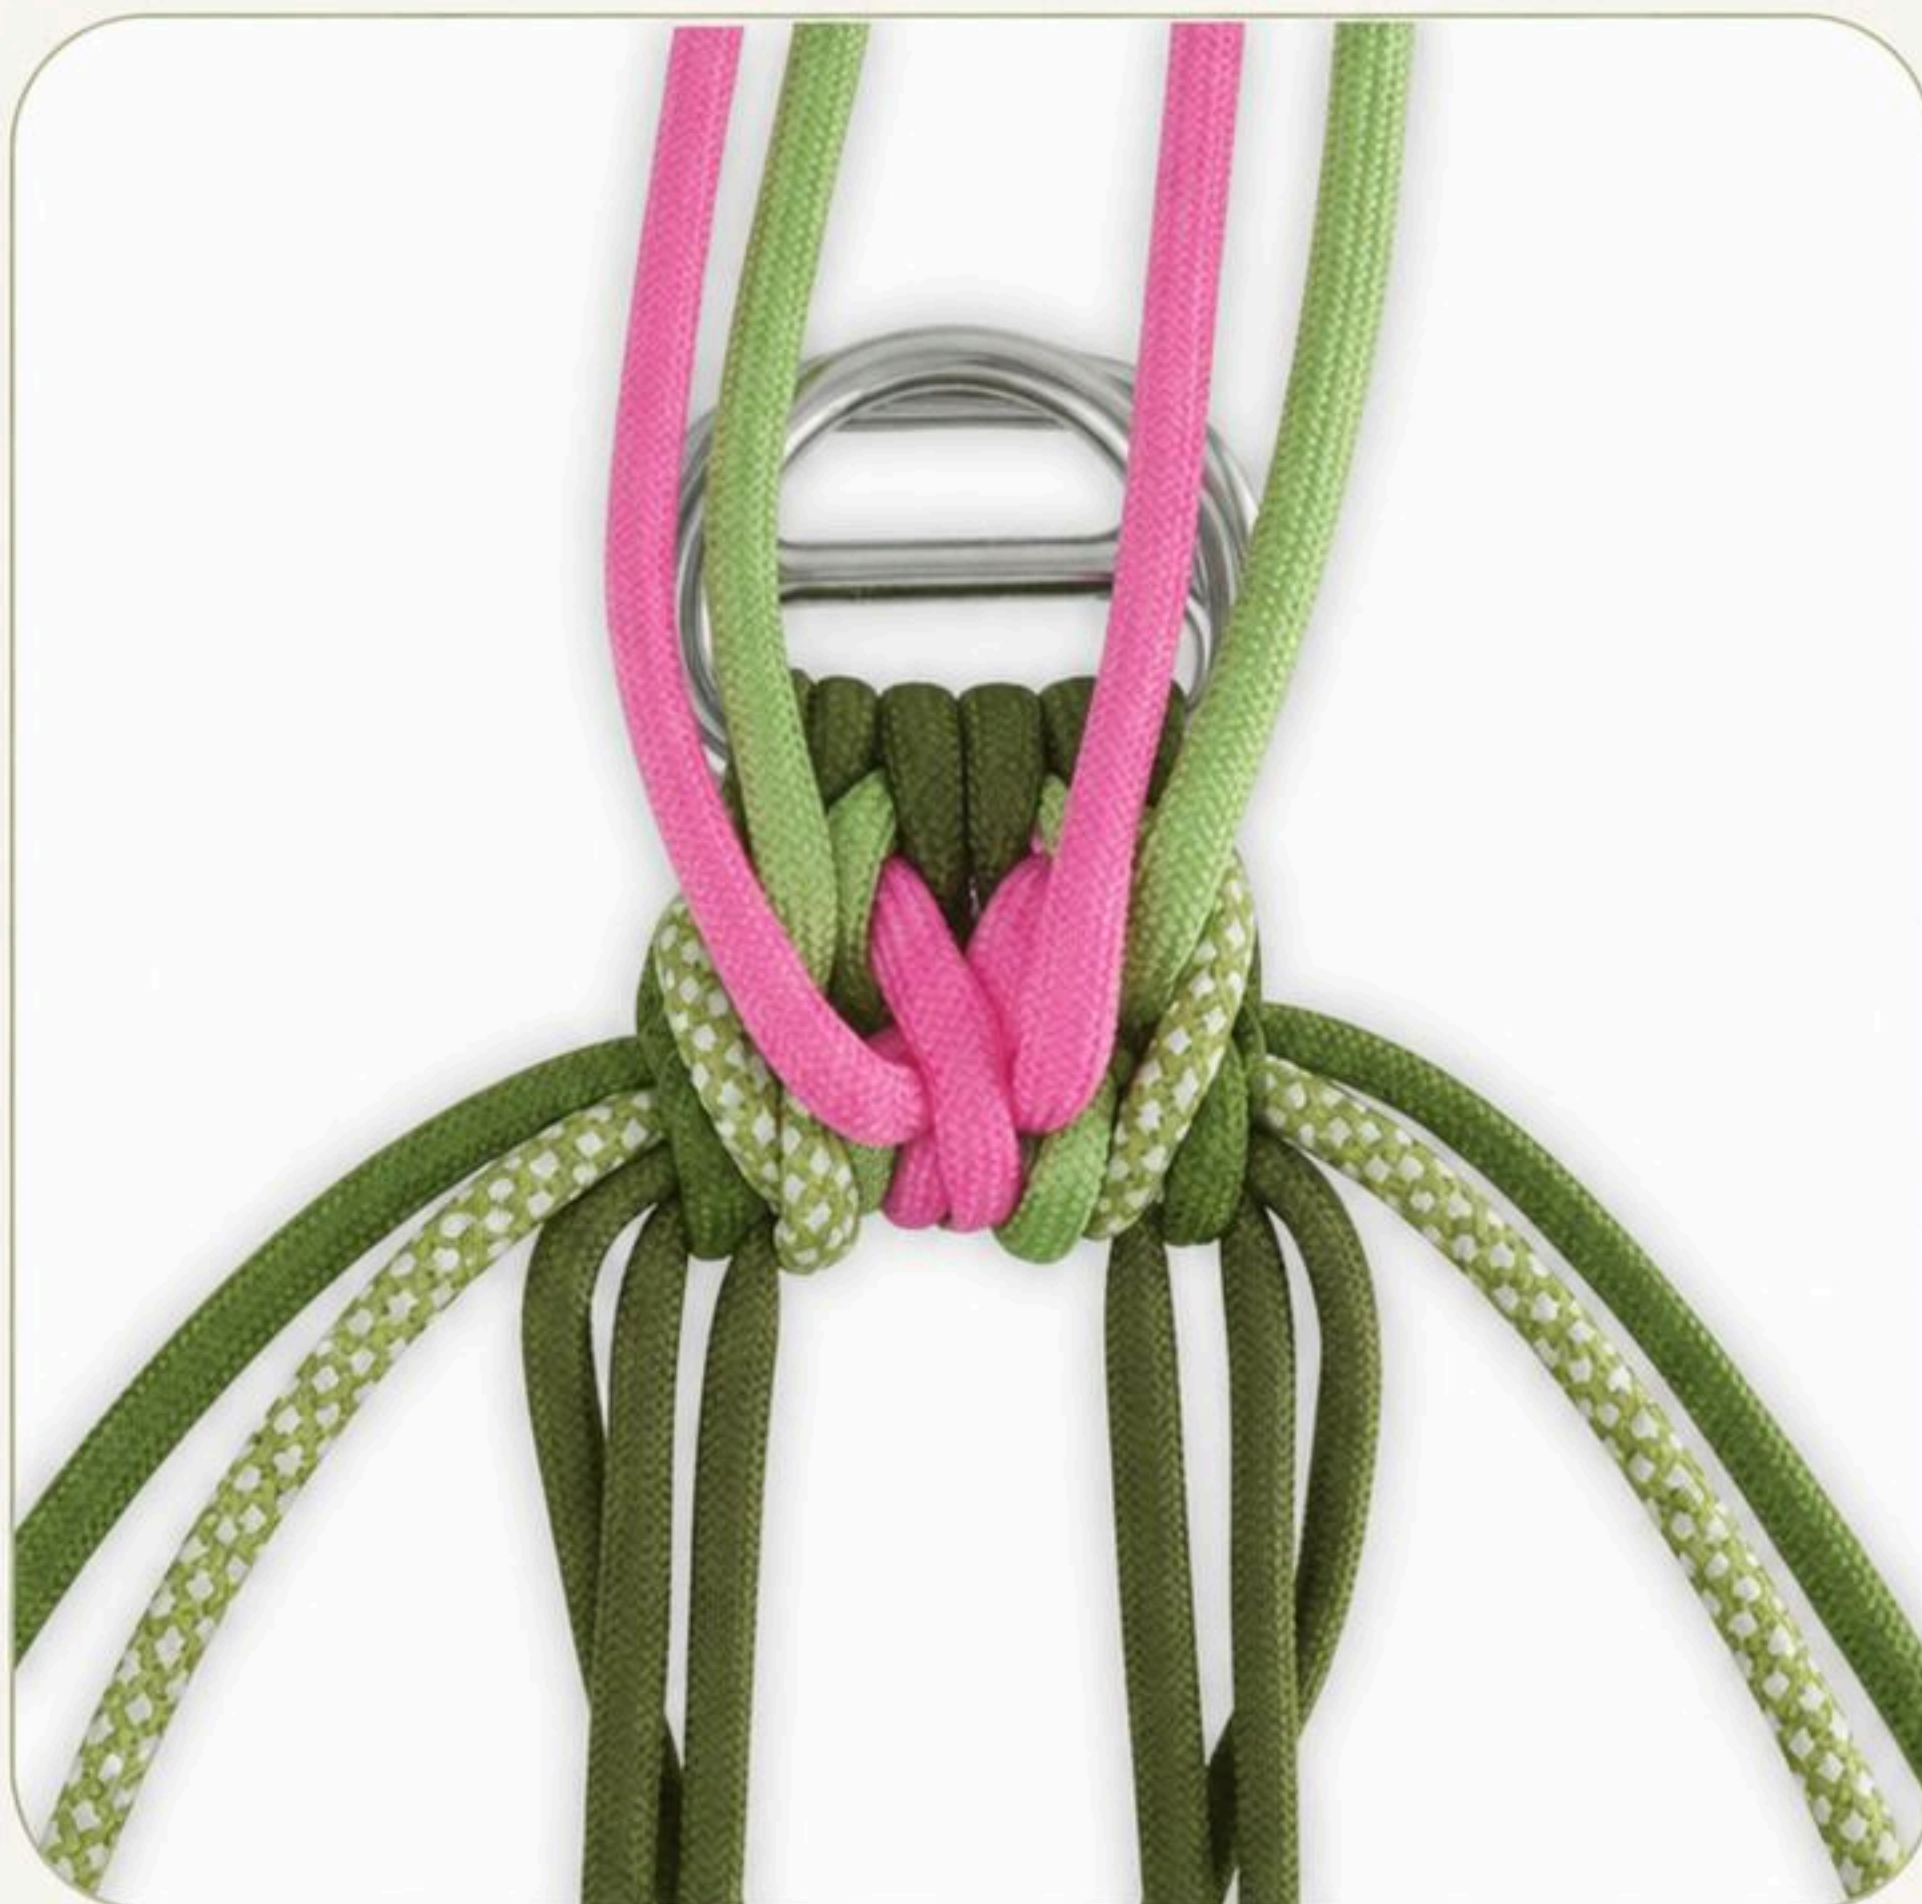

Tighten the section so the pink
center braid sits straight and balanced.

STEP

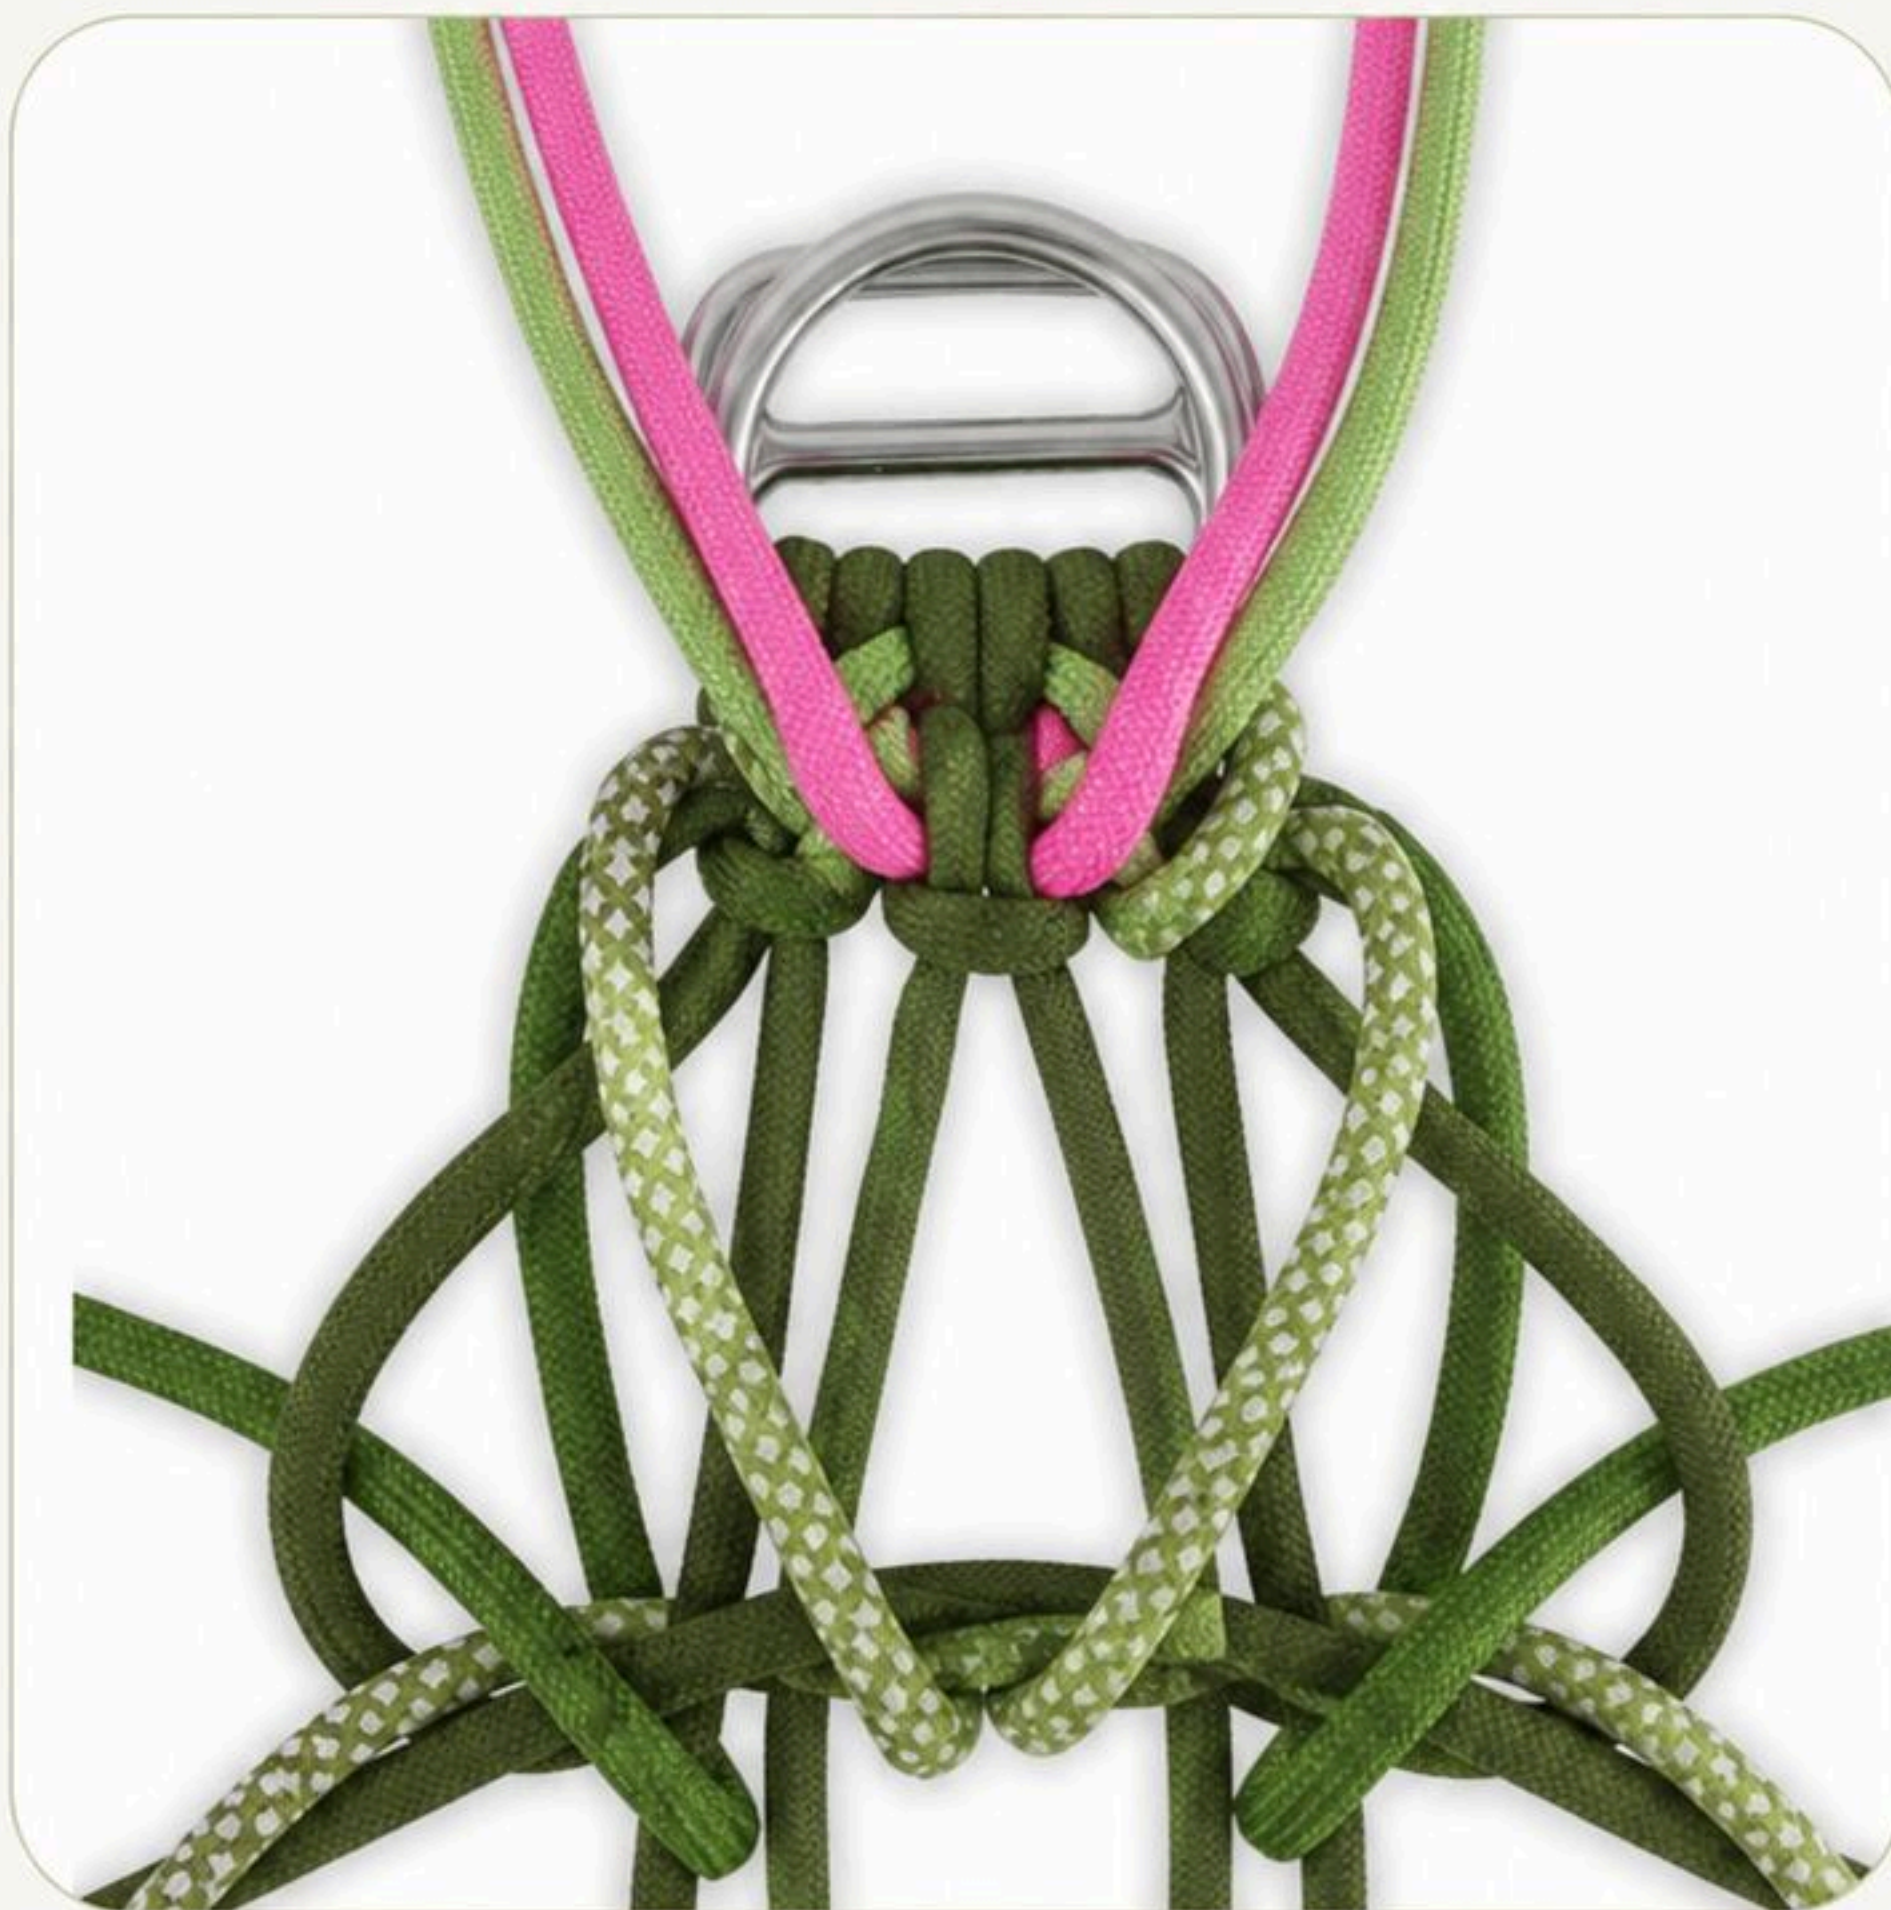

11

Lift the working cords upward to begin the next repeat of the love-knot sequence.

STEP 12

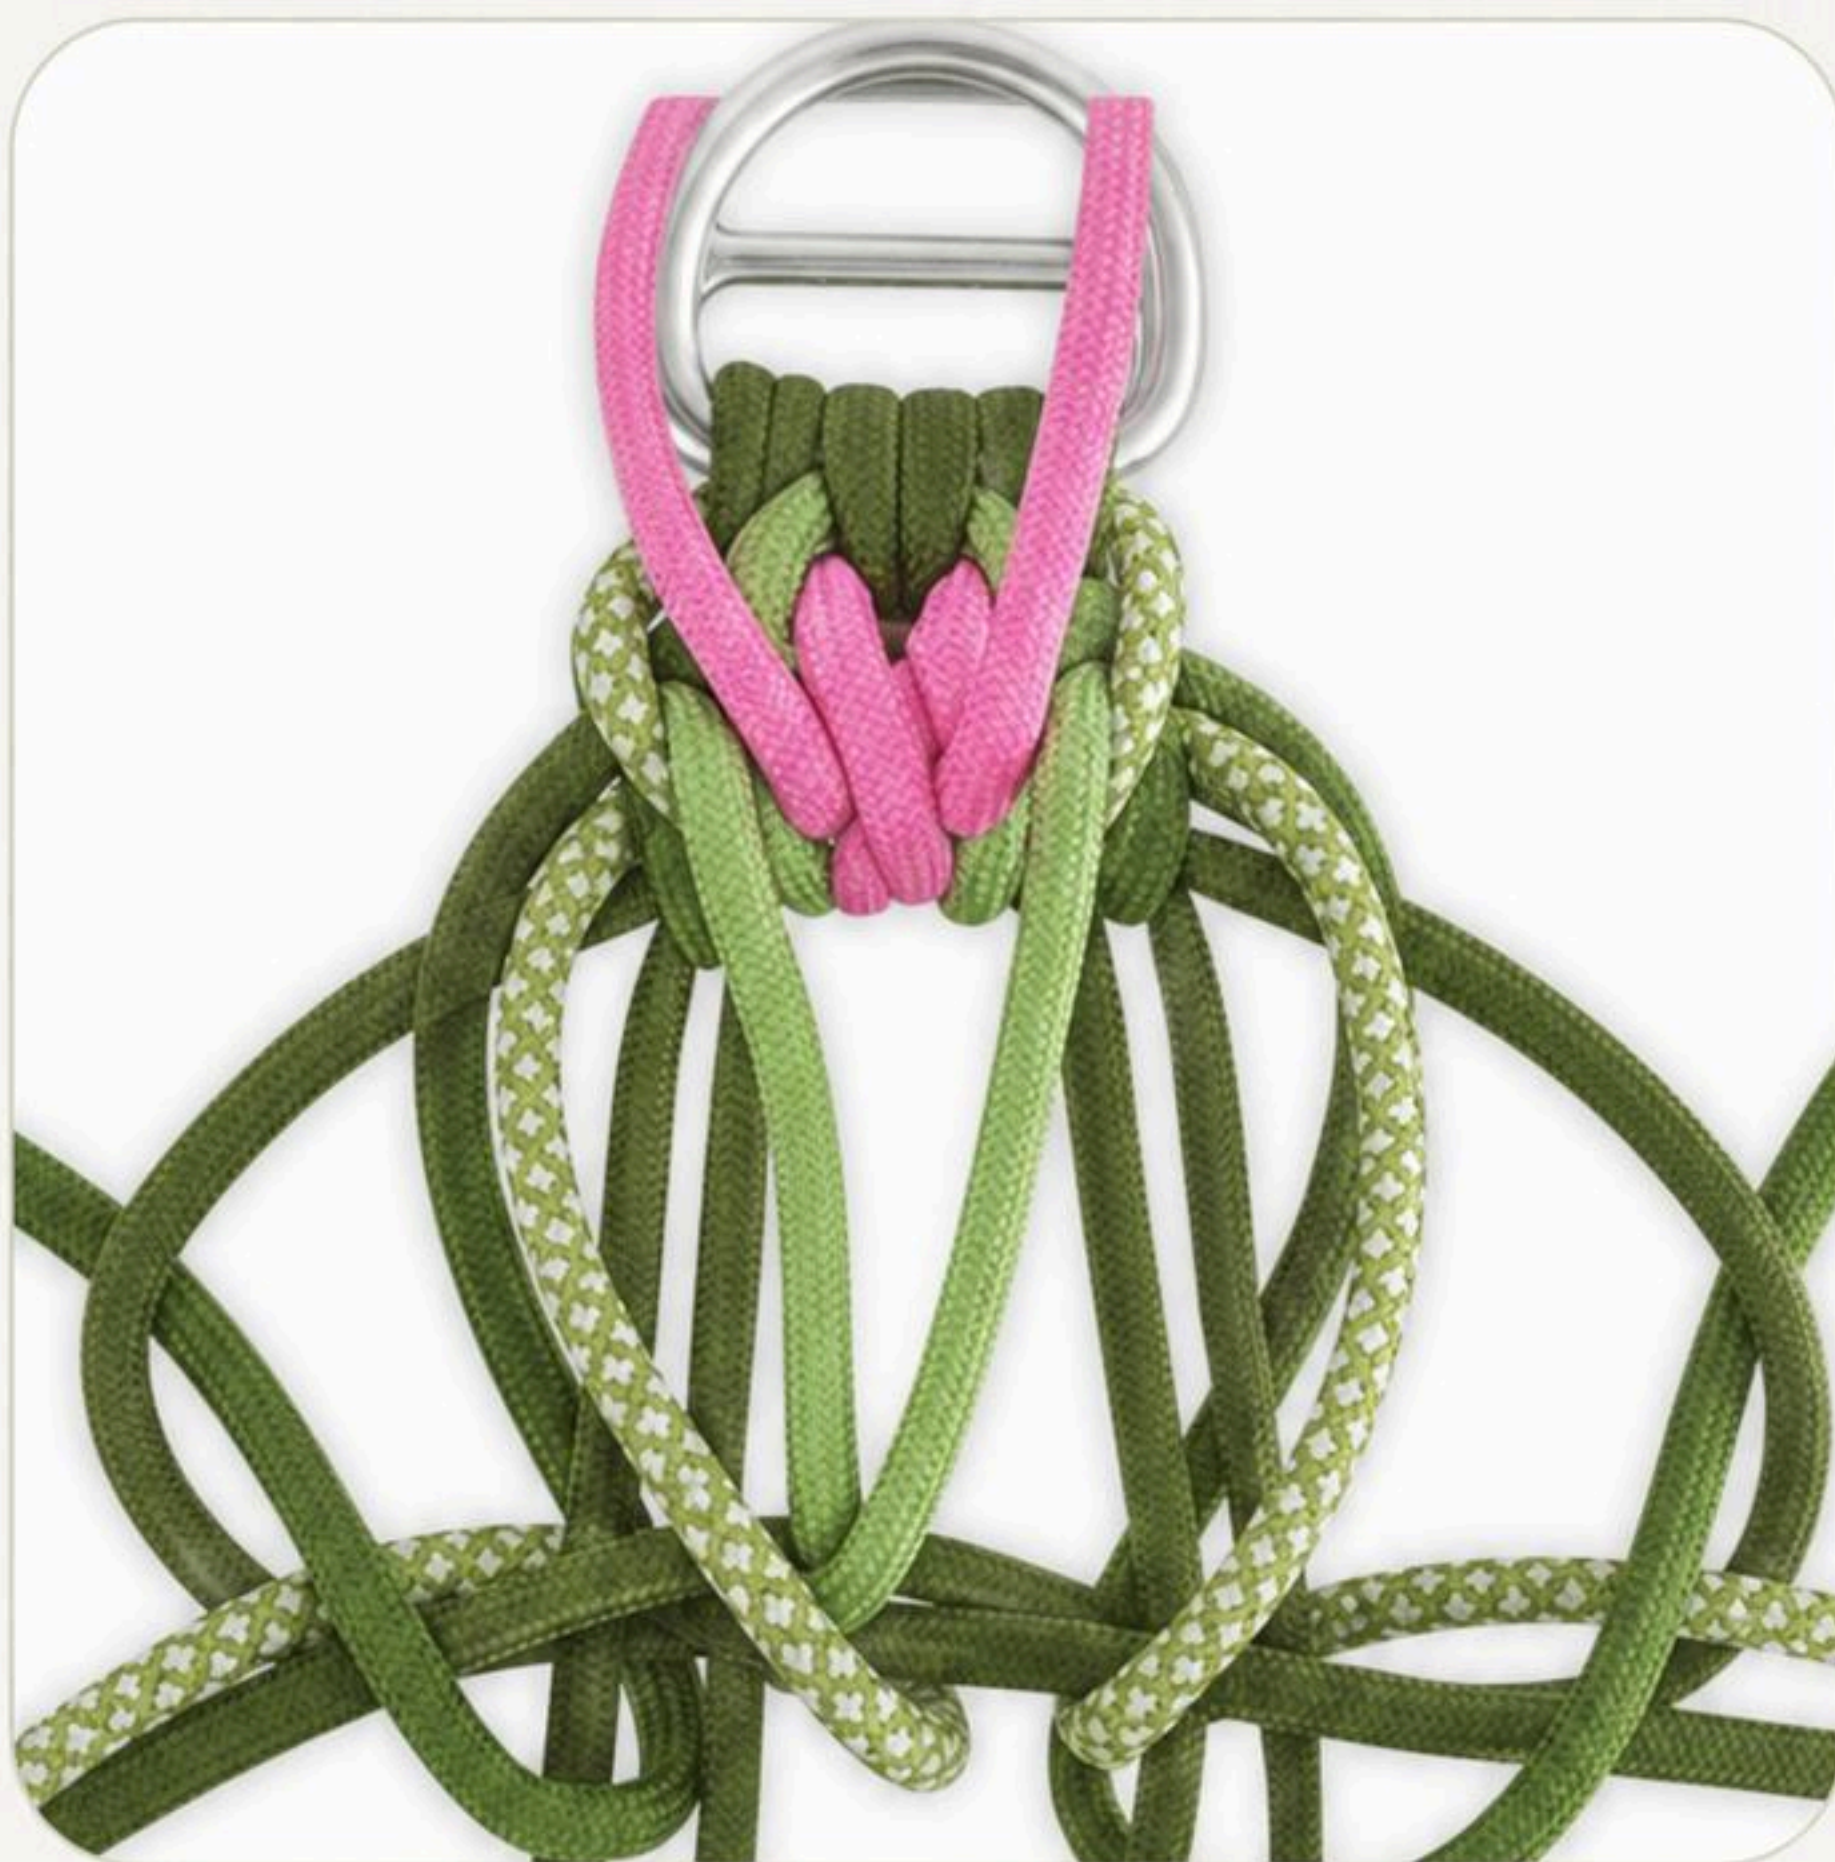

Set the top loops neatly and prepare the lower side cords for the next interlacing move.

STEP

13

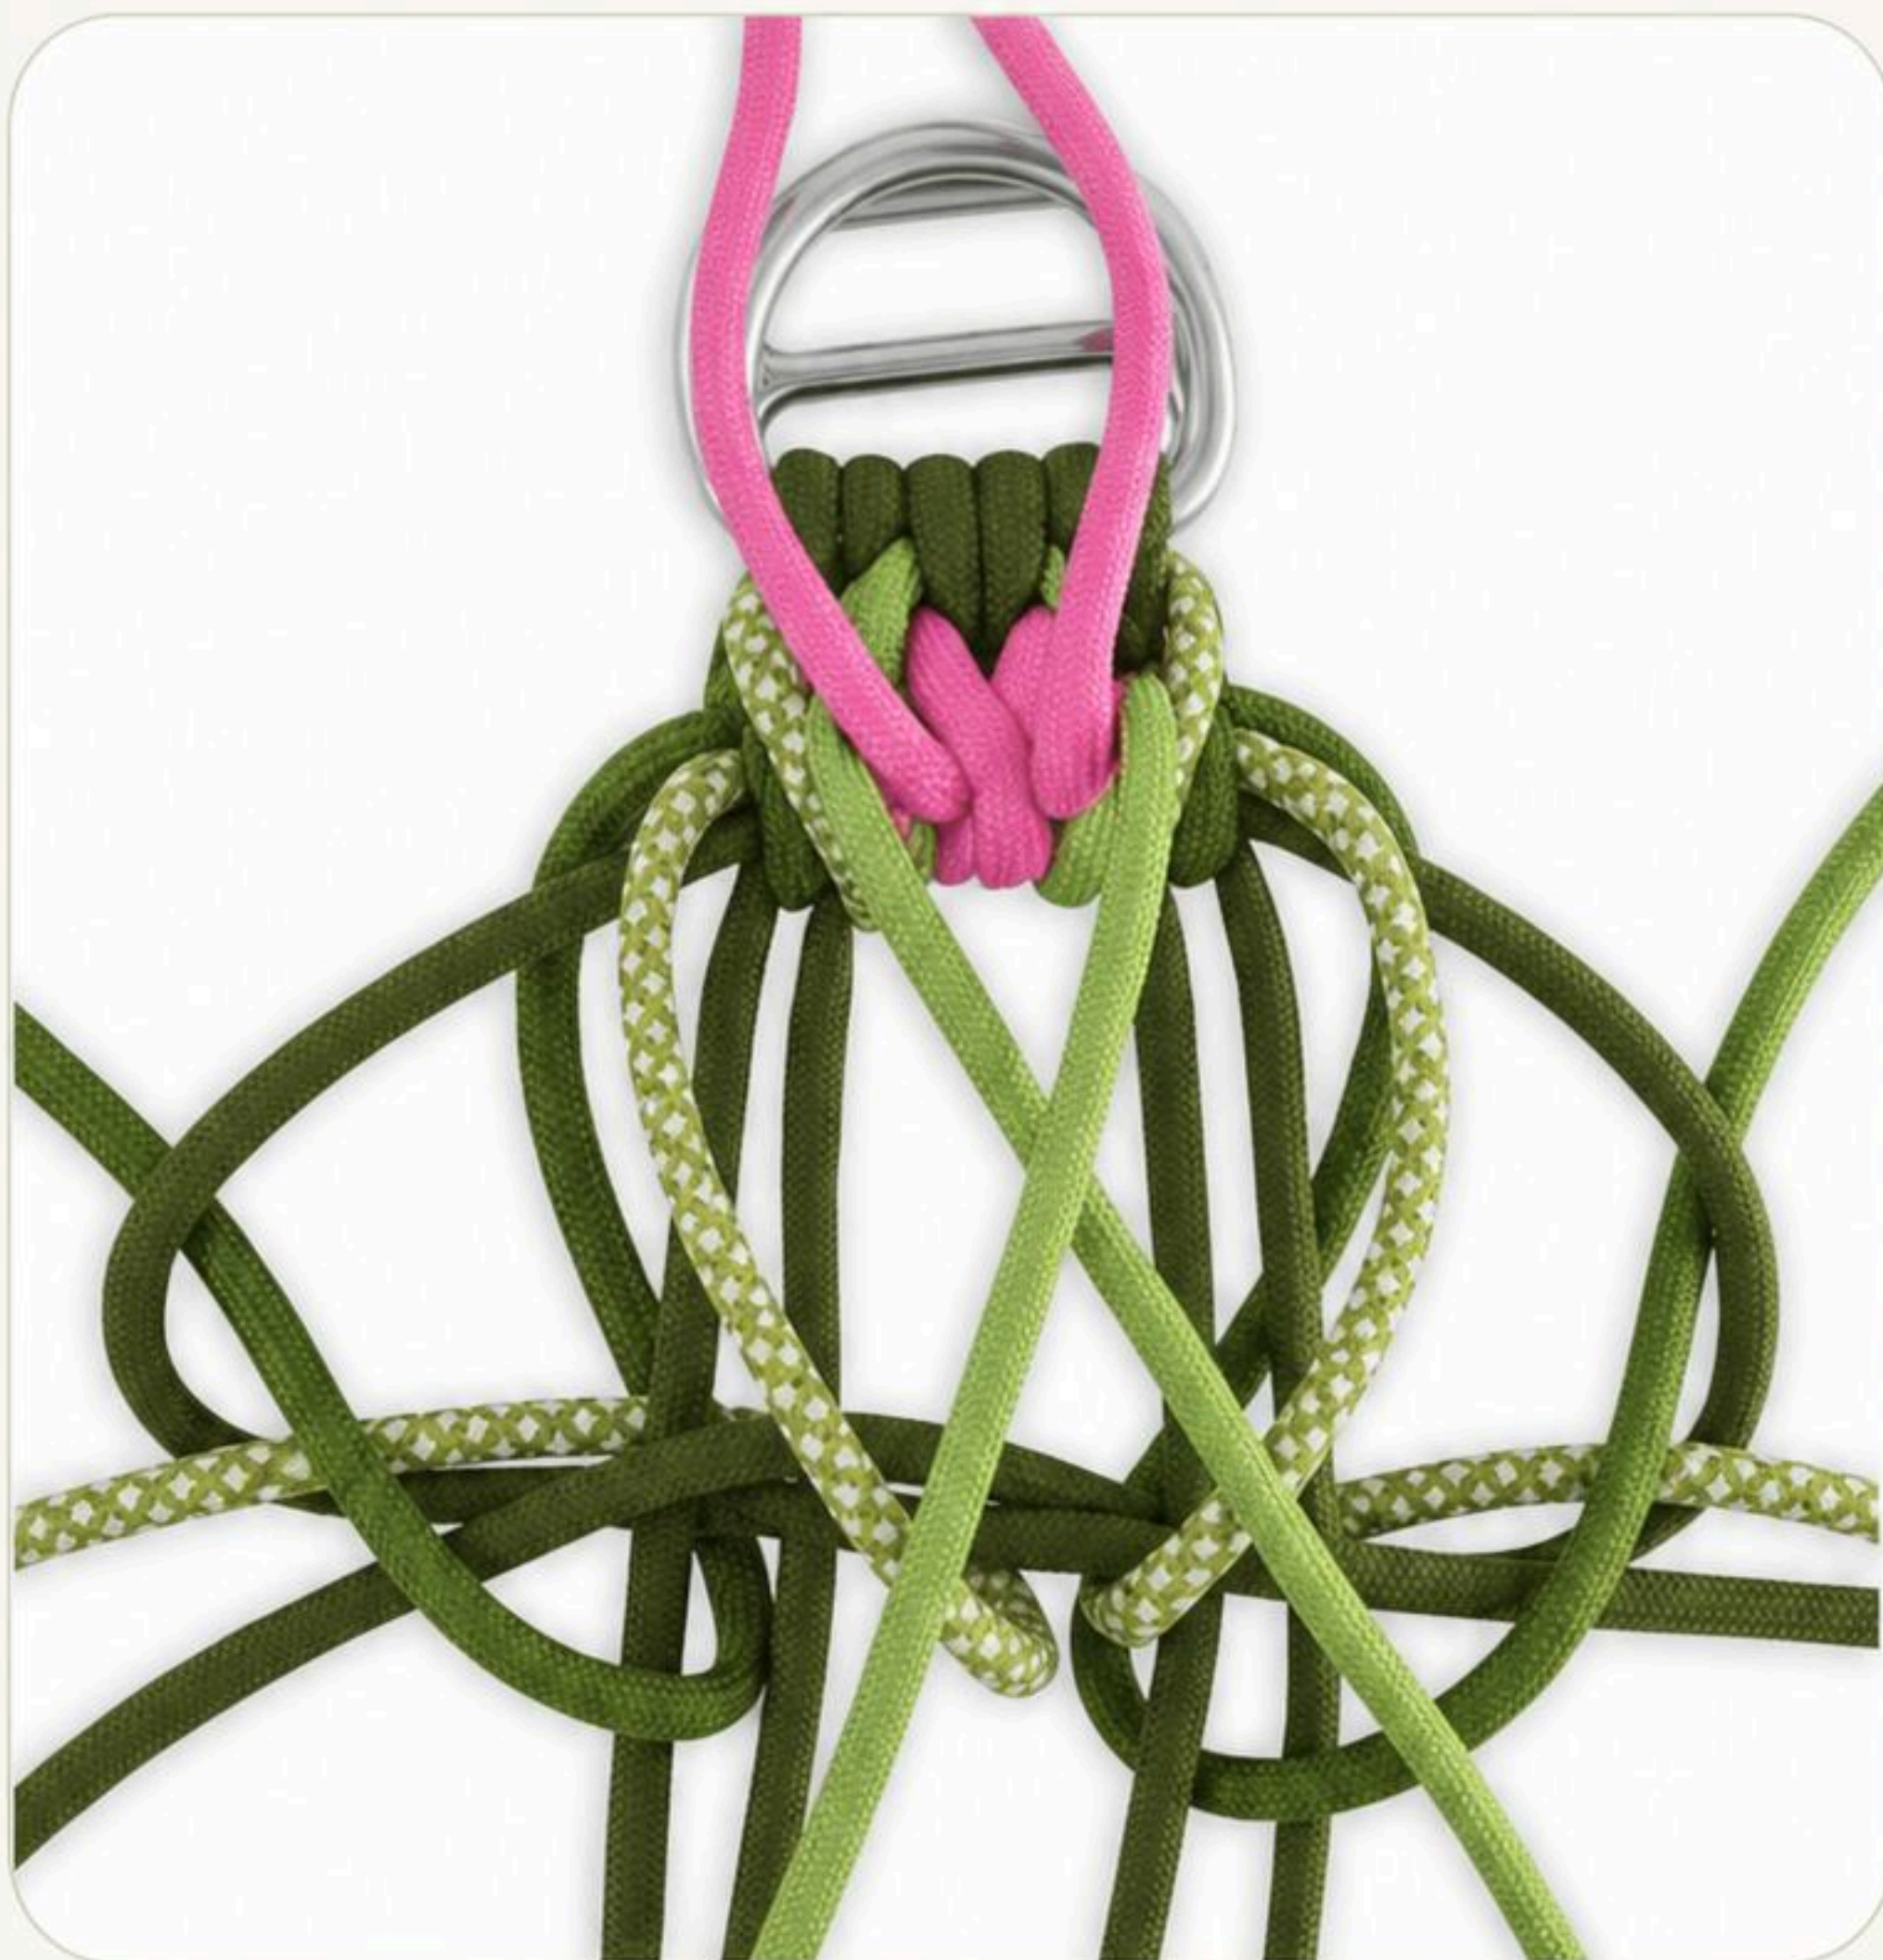

Continue weaving the side cords around the center, keeping the pattern even on both sides.

STEP

14

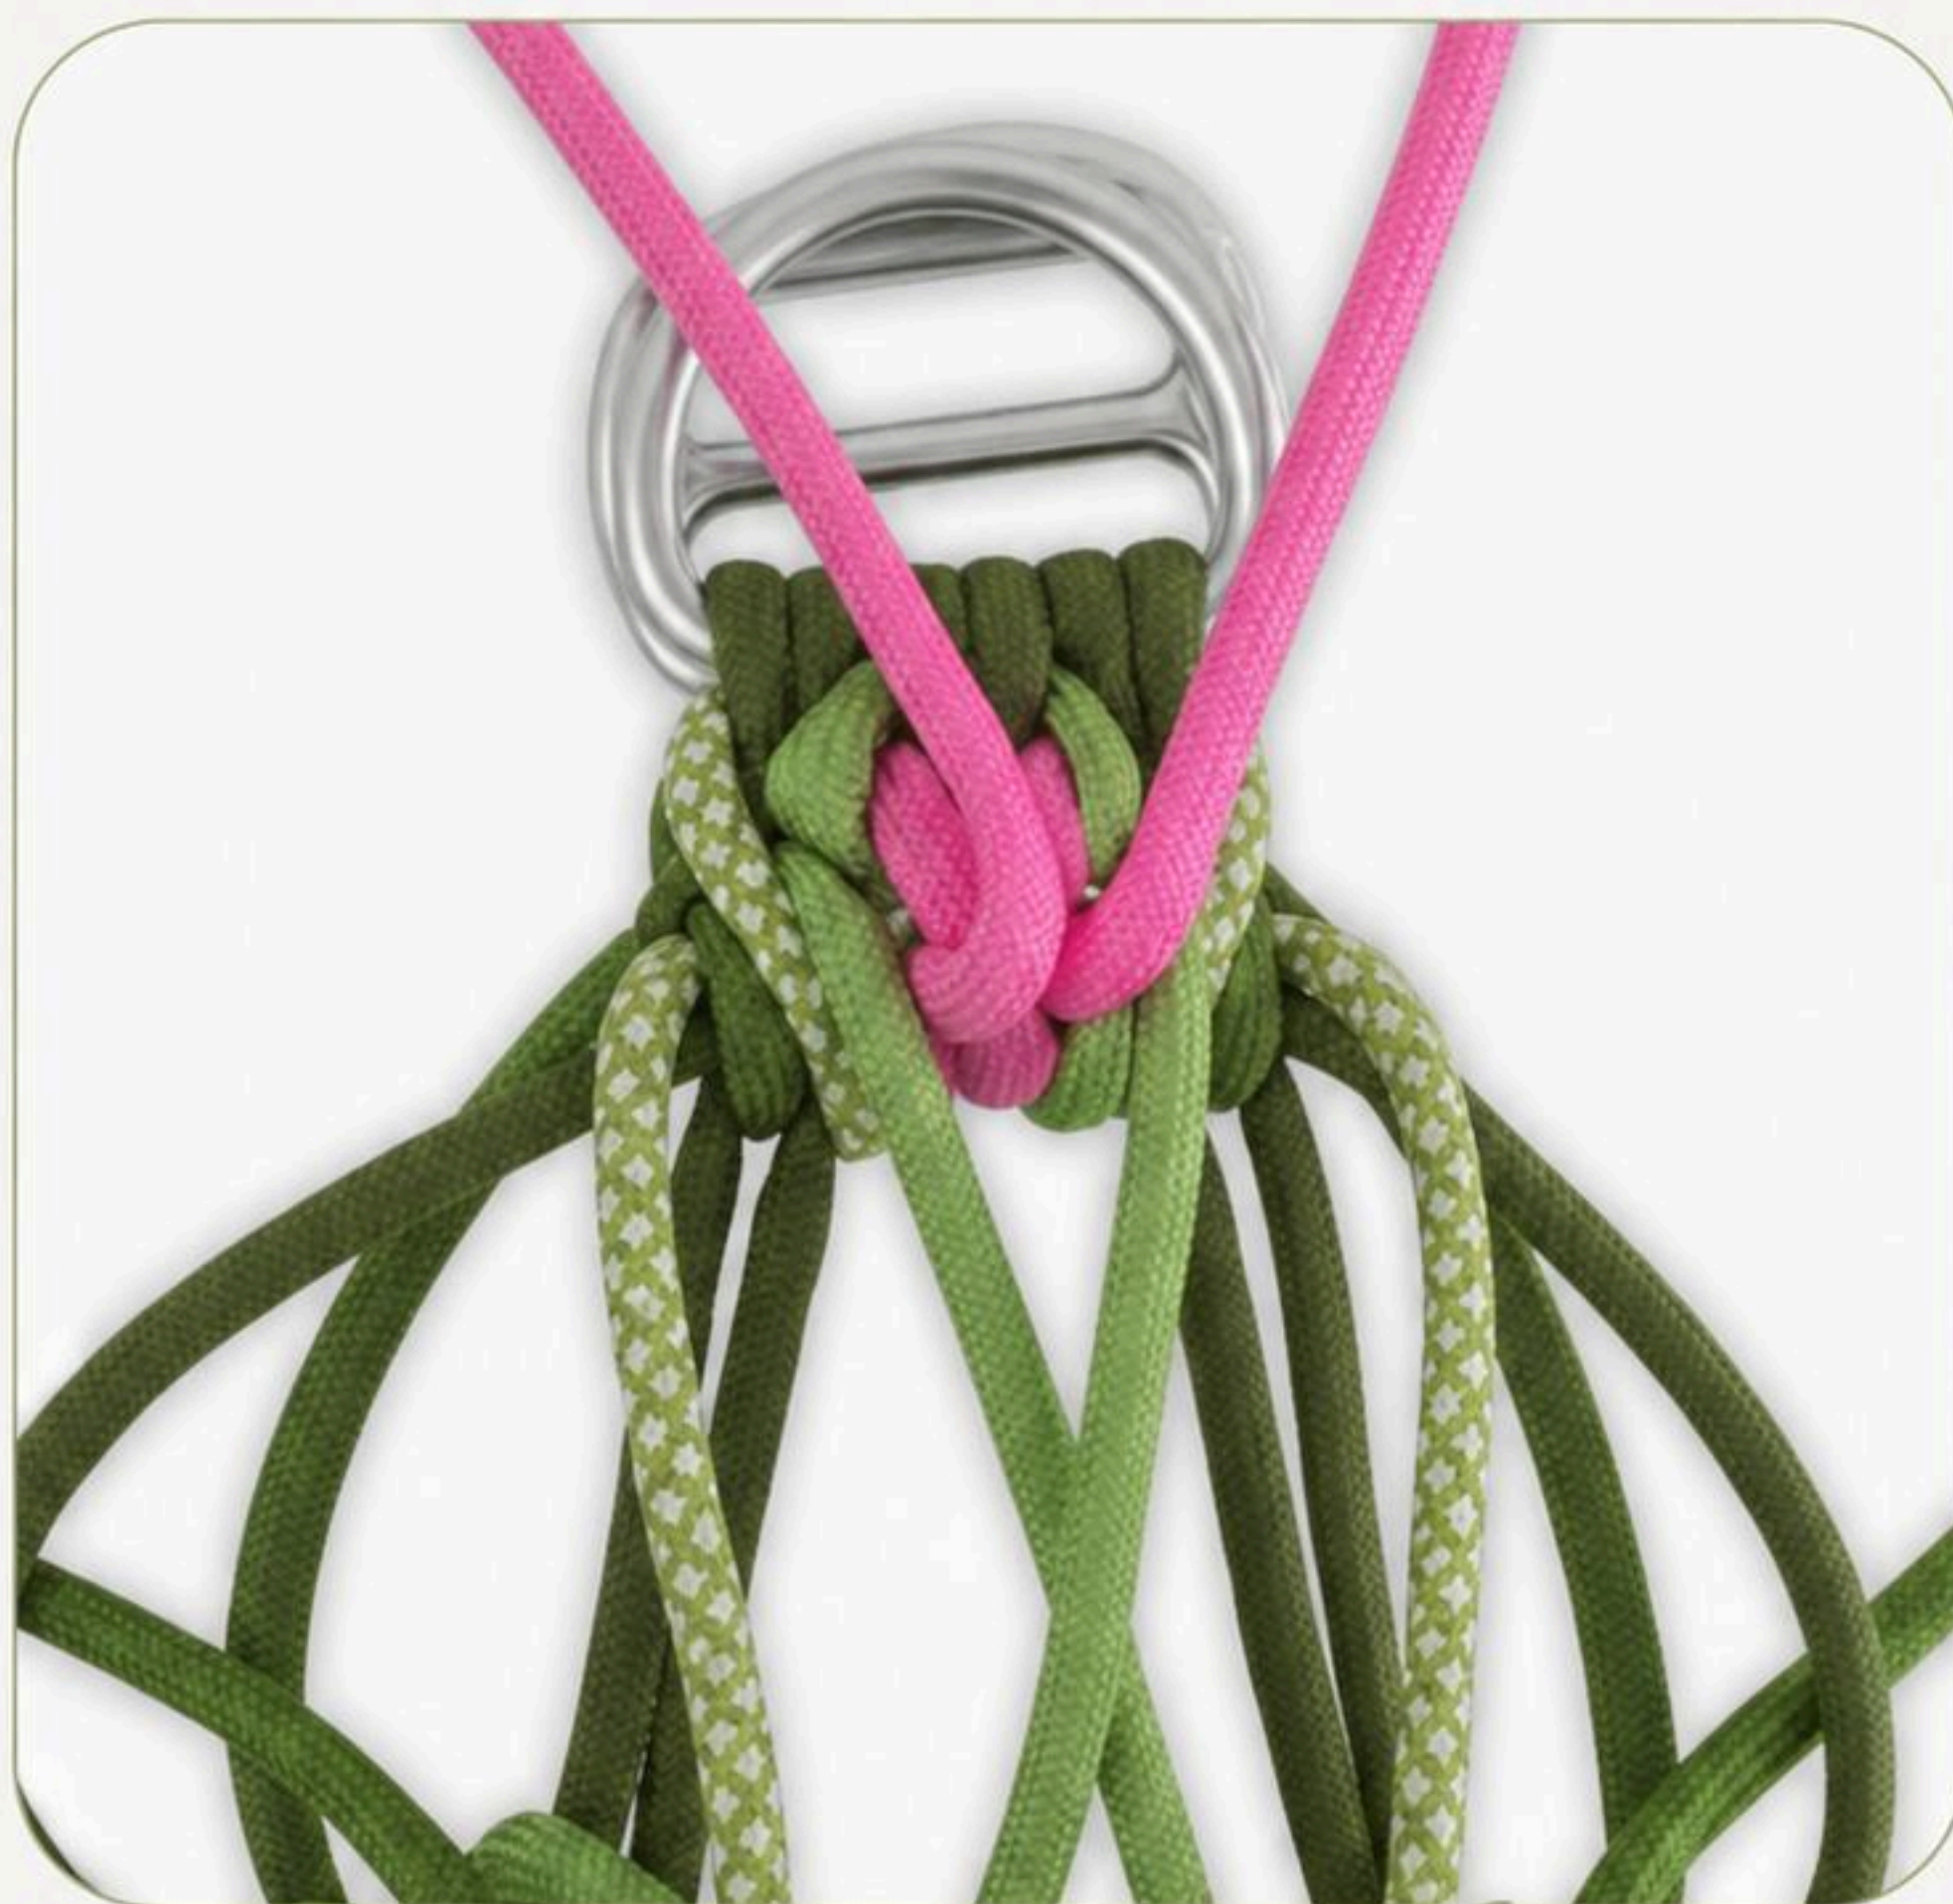

Draw the cords through and shape the new loops while keeping the braid centered.

STEP

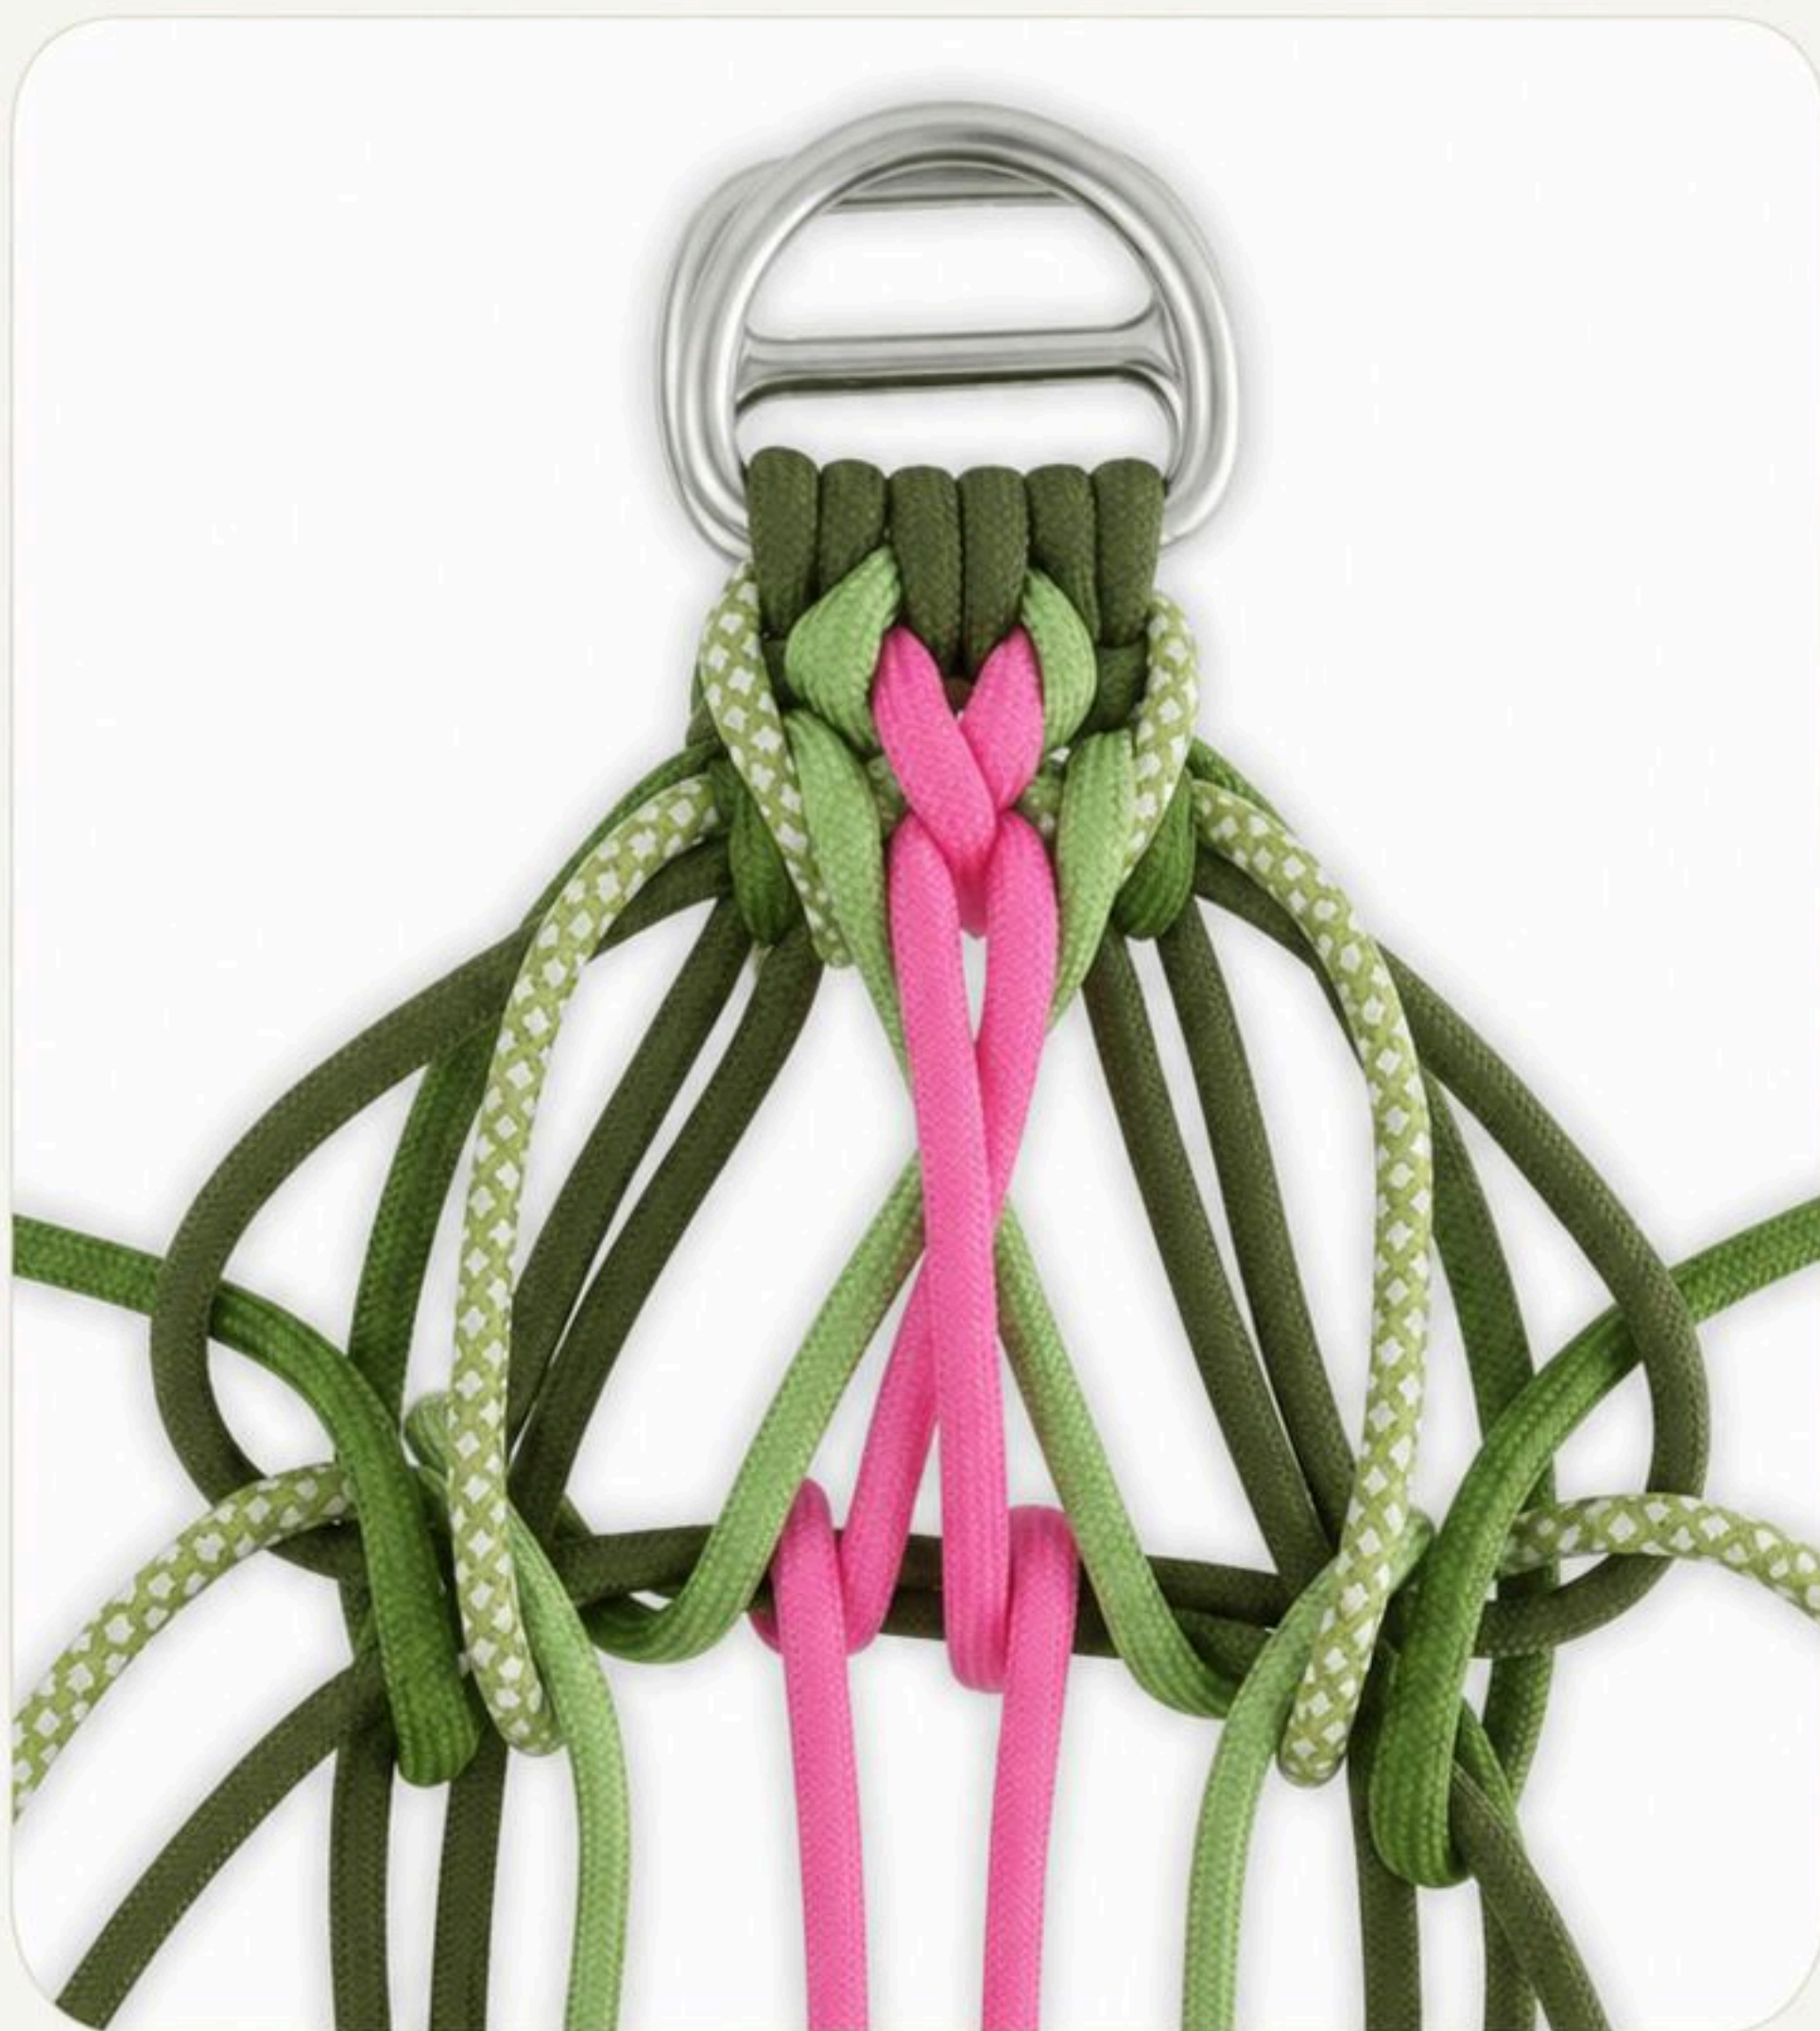

15

Pull the next set of cords into place so the love-knot pattern starts locking together.

STEP 16

Tighten the pattern so the pink center braid lengthens neatly through the middle.

STEP

17

At this stage the front braid is fully formed
and evenly aligned, ready for the next finishing knots.
